Academic Success Formula Tutor Doctor 2017-06-27 If your child is struggling in school, and you can't find a solution, this may be the book for you. Tutor Doctor's unique approach to learning takes a step back from the books and explores how your child is approaching their studies. Do they have a clear set of goals to motivate them? Are they finding the process fulfilling? Can they organize their time, and are they eating well? Do they feel comfortable in a learning environment, or is the classroom a place that makes them anxious? Knowledge is important, but without the right framework in place, even the brightest child will fail. That's why the first step to addressing problems at school isn't more schooling; it's helping students become happy, confident, and motivated to learn. Over the past thirteen years, Tutor Doctor teams have worked with more than 200,000 students to build winning learning strategies. In this book, their leading experts explain how you, too, can guide your child to success.

Counseling 21st Century Students for Optimal College and Career

Readiness Corine Fitzpatrick 2012-03-27 In order for students to compete in today's global economy, our schools need to help them develop better cognitive and technological skills. School counselors have an enormous impact on students' achievement and their success in their post-secondary education, yet initiatives to improve student outcomes often overlook them. Fitzpatrick and Costantini present their own action-based curriculum for high school counselors that will meet the needs of 21st century students, helping to foster their growth and ambition and actively engage them in learning what they need to succeed beyond high school. Important steps covered in this curriculum include Making the transition to ninth grade successful Using technology in the advising process, such as online resources for college and career research, assessing interests, and structuring advising sessions Preparing for standardized testing and using it to motivate students about the college application process Assisting students in researching careers and colleges, making the most of college visits, applying for college, and writing the application essay Equally important, the book focuses on the counselor and his or her role as an advocate and leader for students and details running a guidance office, working with parents, and writing Secondary School Reports. While applicable for all school counselors and students, the authors' curriculum has a special focus on students in urban public schools to enable them to have the same experiences as their counterparts in suburban and private schools. Accompanying downloadable resources contain the tables, exercises, and charts from the book so they can be easily accessed and reproduced.
