These two edited volumes are divided broadly into seven distinct sections. Section 1 of the volume navigates "Conceptual and Methodological Issues", Section 2 focuses on "Cognitive-Affective Aspects of Behaviour". Whereas, Section 3 of the volume is devoted to "Socio-Developmental Issues" and Section 4 reports about "Health and Well-being". Moreover, Section 5 talks about "Behaviour in Intercultural Context" and Section 6 discusses about "Social Cognition and Intergroup Relations". A Generation at Risk? Robyn Pharoah 2004 The problem of children left orphaned and vulnerable by HIV/AIDS is receiving increasing attention worldwide. Yet, even as the global community acknowledges the human tragedy that orphaning on the scale heralded by the HIV/AIDS epidemic represents, it is widely speculated that large numbers of orphans may themselves represent a security challenge. By reducing the resources available to children and destabilising the institutions on which they depend - such as the family, school and community - it is argued that HIV/AIDS may severely affect children's development, creating generations of disenfranchised and potentially dysfunctional young people left with little alternative but engage in criminal and other threatening activities.
