How to Prepare for the Correction Officer Examination Donald J. Schroeder 1996
Immunoematology and Transfusion Medicine Mark T. Friedman 2018-08-01 The latest edition of this volume features an extensively revised and expanded collection of immunoematology and transfusion medicine cases, comprised of clinical vignettes and antibody panels with questions based on each case. Arranged in a workbook format, the text presents cases based on real patient problems that are typically encountered and covers a number of common issues and challenging problems in blood banking and transfusion practice. Discussion and resolution of each case is provided in a separate answer section, including up-to-date information on pertinent advances in the field.

This second edition also contains new cases on topics not previously covered, including types of compatibility testing, polyagglutination, hematopoietic stem cell transplantation, immunoematology test drug interference, granulocyte transfusion, heparin-induced thrombocytopenia, and the approach to the bloodless patient. Written by experts in the field, *Immunoematology and Transfusion Medicine: A Case Study Approach, Second Edition* provides an interactive tool that makes blood banking and transfusion medicine memorable, practical, and relevant to residents and fellows.
