The A to Z of Science Fiction Literature Brian Stableford 2005-09-13 Science Fiction literature, also known as sci fi and sf, is one of the more recent genres, and also one of the more popular. It only truly emerged during the 20th century, and has not stopped growing in terms of authors, titles and readers. It has also evolved into a variety of subgenres, ranging from hard sf to soft sf, from Utopias to dystopias, with more than a smattering of horror, detective, war and feminist titles. Stableford covers all these aspects and more, taking a close look at what has become a booming industry, with its specialized writers, publishers, and fan magazines. The compendium includes not only sf from the United States and United Kingdom, but also France, Russia, and many others. While the chronology charts the genre's dazzling growth, and the dictionary section looks at writers, books, themes, and other specifics, the introduction provides exceptional insight into what Science Fiction Literature is all about.

American Politics in Hollywood Film Ian Scott 2011-05-06 In this second edition of American Politics in Hollywood Film, Ian Scott takes up his analysis of political content and ideology through movies and contends that American culture and the institutional process continues to be portrayed, debated and influenced. **Henry: Portrait of a Serial Killer** Shaun Kimber 2017-09-16 Henry: Portrait of a Serial Killer (1986) is precisely that: a cold-eyed character study based on the crimes of Henry Lee Lucas, who was convicted of eleven murders in the 1980s. Director John McNaughton presents an unflinching portrayal of the semi-fictional Henry's crimes. The film proved immensely controversial, notably in the UK, where it confounded the British Board of Film Classification, which went so far as to re-edit a crucial scene, in addition to cutting others. Shaun Kimber's examination of the controversies surrounding Henry considers the history and implications of censors' decisions about the film on both sides of the Atlantic. Taking account of the views of audiences, critics and academics, both at the time the film was released and in the years since, Kimber also looks at the changing political, social and economic contexts within which the film was produced and has subsequently circulated. Henry continues to represent a key film within the horror genre, the history of censorship, and the study of film violence. Kimber's account of the film's production and its fortunes in the marketplace provides a fascinating case study of film censorship in action, and offers a sustained and wide-ranging analysis of what remains one of the most disturbing films ever made. 'An excellent in-depth analysis... Kimber effectively combines close readings of key scenes with detailed consideration of the history of different versions of Henry and its various engagements with critics, supporters and regulatory authorities.' Geoff King, Brunel University Shaun Kimber is a Senior Lecturer in the Media School at Bournemouth University.

Film Genre Barry Langford 2019-08-05 Film Genre: Hollywood and Beyond provides a detailed account of genre history and contemporary trends in film genre, alongside the critical debates they have provoked. The book ranges widely across the field, dealing separately and in detail with not only classic genres -

including the Western, the musical, the war film, the gangster film, and film noir - but also more recent trends such as body-horror, Holocaust film, and the action blockbuster. Throughout the book, genre is presented as a constantly evolving phenomenon. Writing in a sophisticated yet accessible style, Barry Langford shows how notions of genre help shape the ways that filmmakers, critics and audiences view films and how the often complex scholarly debates around genre reflect important differences in the ways cinema is understood in relation to its social and historical contexts. The book encourages students to interrogate and broaden received ideas about genre. Key Features*Key text suitable for both undergraduate and advanced students*Detailed close analyses of key films (including The Matrix, Saving Private Ryan and Singin' in the Rain)*Comprehensive bibliography and guide to further reading*Up-to-date and theoretically informed

Digital Matters Jan Harris 2007-05-07 Analyzing the complex interaction between the material and immaterial aspects of new digital technologies, this book draws upon a mix of theoretical approaches (including sociology, media theory, cultural studies and technological philosophy), to suggest that the 'Matrix' of science fiction and Hollywood is simply an extreme example of how contemporary technological society enframes and conditions its citizens. Arranged in two parts, the book covers: theorizing the Im/Material Matrix living in the Digital Matrix. Providing a novel perspective on on-going digital developments by using both the work of current thinkers and that of past theorists not normally associated with digital issues, it gives a fresh insight into the roots and causes of the social matrix behind the digital one of popular imagination. The authors highlight the way we should be concerned by the power of the digital to undermine physical reality, but also explore the potential the digital has for alternative, empowering social uses. The book's central point is to impress upon the reader that the digital does indeed matter. It includes a pessimistic interpretation of technological change, and adds a substantial historical perspective to the often excessively topical focus of much existing cyberstudies literature making it an important volume for students and researchers in this field.

Ideas and Options in English for Specific Purposes Helen Basturkmen 2014-03-14 This volume presents a range of views about language, learning, and teaching in English for Specific Purposes (ESP). Its purpose is to go beyond individual cases and practices to examine the approaches and ideas on which they are based. The aim is for readers to adopt an analytical stance toward the field and to identify current perspectives in ESP and the ideas driving them. Ideas and Options in English for Specific Purposes does not promote any one approach, but rather identifies and illustrates those in evidence today. The main emphasis is on the links between theory and ESP teaching and research. Ideas from linguistics, sociolinguistics, education, SLA, and social theories are described. Links are then made between these ideas and ESP course designs, instructional materials, and research projects. Thus the book moves back and forth between descriptions of theories, teaching practice, and research. Part I introduces the book's approach to description of ESP and the framework used to investigate it. Part II examines ideas of language, learning, and teaching in ESP. Recognizing that ESP is taught in many different countries and contexts, the author draws on a wide range of examples of teaching practice and research from around the world and from different branches of ESP, including English for Academic Purposes, English for Professional Purposes, and English for Vocational Purposes. From Chapter 3 onward, each chapter includes Questions for Discussion and Projects, to encourage readers to research and analyze the practices of ESP in their own contexts and to consider the ideas they draw on in their own teaching. This text is geared toward graduate-level TESOL education courses.

Neo-Baroques 2016-10-18 The Baroque is back in contemporary culture. The ten essays authored by international scholars, and three interventions by artists, examine the return of the baroque as Neo-Baroque through interdisciplinary perspectives. Understanding the Neo-Baroque as transcultural (between different cultures) and transhistorical (between historical moments) the contributors to this volume offer diverse perspectives that suggest the slipperiness of the Neo-Baroque may best be served by the term 'Neo-Baroques'. Case studies analysed reflect this plurality and include: the productions of Belgian theatre company Abattoir Fermé; Claire Denis' French New Extremist film Trouble Every Day; the novel Lujuria tropical by exiled El Salvadorian Quijada Urias; the science fiction blockbuster spectacles The Matrix and eXistenZ; and the spectacular grandeur of early Hollywood movie palaces and the contemporary Las Vegas Strip.
