*Decisions* Leonard J. Rosen 2001-08 This is a brief handbook that

emphasizes writing as a decision-making process. No other handbook  
matches this text's coverage of critical thinking at the essay, paragraph,  
and sentence levels. Parts I, II, & III offer an introduction to effective  
critical thinking, reading, and writing as well as comprehensive coverage  
of the writing process and writing from sources. Parts IV through VII  
cover the decisions involved in basic sentence construction, style,  
punctuation, mechanics and spelling. In each chapter, critical decisions  
boxes guide students through analyses of key issues. One of these  
chapters introduces ways of thinking about the humanities, social  
sciences and natural sciences, and introduces typical writing scenarios.  
Sample essays and strategies address each discipline area's ways of  
knowing or arguing. Another chapter on provides guidelines for using  
and citing CD-ROMs, online data bases, and the Internet, including  
suggestions for evaluating sources. An appendix on using the Internet  
gives additional tools and resources. Each chapter also contains boxes  
highlighting key points, and computer tips with advice on how to conduct  
research, compose, revise, and edit using the latest technologies.
