Intro to Oceanography & Ecology Parent Lesson Plan 2013-08-01 Introduction to Ocean and Ecology Course Description This is the suggested course sequence that allows one core area of science to be studied per semester. You can change the sequence of the semesters per the needs or interests of your student; materials for each semester are independent of one another to allow flexibility. Semester 1: Oceans The oceans may well be earth's final frontier. These dark and sometimes mysterious waters cover 71 percent of the surface area of the globe and have yet to be fully explored. Under the waves, a watery world of frail splendor, foreboding creatures, and sights beyond imagination awaits. The Ocean Book will teach you about giant squid and other "monsters" of the seas; centuries of ocean exploration; hydrothermal vents; the ingredients that make up the ocean; harnessing the oceans' energy; icebergs; coral reefs; ships, submarines, and other ocean vessels; the major ocean currents; El Niño; whirlpools and hurricanes; harvesting the ocean's resources; whales, dolphins, fish, and other sea creatures. Learning about the oceans and their hidden contents can be exciting and rewarding. The abundance and diversity of life, the wealth of resources, and the simple mysteries there have intrigued explorers and scientists for centuries. A better understanding of our oceans ensures careful conservation of their grandeur and beauty for future generations, and lead to a deeper respect for the delicate balance of life on planet Earth. Semester 2: Ecology Study the relationship between living organisms and our place in God's wondrous creation! Learn important words and concepts from different habitats around the world to mutual symbiosis as a product of the relational character of God. This is a powerful biology-focused course specially designed for multi-age teaching. Students will: Study the intricate relationship between living organisms and our place in God's wondrous creation Examine important words and concepts, from different habitats around the world to our stewardship of the world's resources Gain insight into influential scientists and their work More fully understand practical aspects of stewardship Investigate ecological interactions and connections in creation The Ecology Book encourages an understanding of a world designed, not as a series of random evolutionary accidents, but instead as a wondrous, well-designed system of life around the globe created to enrich and support its different features. Activities provide additional ways to make the learning experience practical. *Biology* Sylvia S. Mader 2000-07

Prioritization, Delegation, and Assignment Linda A. LaCharity 2013-12-02 The only NCLEX review book on the market with a focus on prioritization, delegation, and patient assignment — just like the current NCLEX Examination itself! Using a unique simple-to-complex approach, Prioritization, Delegation, and Assignment: Practice Exercises for the NCLEX® Examination, 3rd Edition establishes your foundational knowledge in management of care, then provides exercises of increasing difficulty to help you build confidence in your prioritization, delegation, and patient assignment skills. "...certainly a great resource for use in any healthcare setting." Reviewed by Anne Duell on behalf of Nursing Times, September 2015 UNIQUE! Emphasis on the NCLEX Examination's management-of-care focus addresses the heavy emphasis on prioritization, delegation, and patient assignment in the current NCLEX Examination (17-23% of the 2013 NCLEX-RN Exam). UNIQUE! Three-part organization establishes foundational knowledge and then

provides exercises of increasing difficulty to help you build confidence in your prioritization, delegation, and patient assignment skills. Answer key at the back of the book offers a detailed rationale and an indication of the focus of the question to encourage formative assessment. Introduction chapter by delegation expert Ruth Hansten provides guidelines for prioritization, delegation, and patient assignment decisions as well as a concise, practical foundation on which Parts 2 and 3 build. Part 2: Prioritization, Delegation, and Assignment in Common Health Scenarios give you practice in applying the principles from Part 1 with straightforward NCLEX-style multiple-choice, multiple-select, ordering, and short-answer questions to help you develop and build confidence in prioritization, delegation, and patient assignment skills while working within the confines of relatively simple health scenarios. Part 3: Prioritization, Delegation, and Assignment in Complex Health Scenarios utilizes unfolding cases that build on the skills learned in Part 2 to equip you to make sound decisions in realistic, complex health scenarios involving complicated health problems and/or challenging patient assignment decisions and help you learn to "think like nurses" by developing what Benner (2010) calls "clinical imagination." NEW! Fully interactive question functionality features optional online answer submission with automated scoring. NEW! The all-important QSEN initiative is addressed by: Introducing the QSEN initiative and QSEN competencies in Part I Including a new chapter focused primarily on safety and other "nursing fundamentals" issues Identifying corresponding QSEN competencies and Concepts for each question in the Answer Key in the Evolve Instructor Resources NEW! Faculty-only Unfolding Cases and Suggested Uses resource on Evolve facilitate classroom discussion, development of clinical reasoning skills, and learner evaluation, as well as tips for teaching with the book throughout the nursing curriculum. NEW! Safety and Infection Control chapter features an increased number of questions specific to the QSEN safety competency. NEW! Separate Diabetes Mellitus and Other Endocrine Problems chapters give greater emphasis to diabetes as requested in feedback on the previous edition. NEW! Pediatric Problems and Psychiatric-Mental Health Problems chapters expand on content formerly integrated into body systems chapters to provide you with a more thorough understanding of these key clinical areas. NEW! NCLEX chart-format questions include six patient "charts" in Case Study 6 (Home Health) to reflect the NCLEX Exam's chart-format questions. NEW! Design and navigation enhancements include page cross-references at the bottom of each page, quick-reference tabs on the answer key, and a new two-color design. NEW! Additional questions address the newborn, immunization, catheter-related infection, and ventilator-related infection.
