Equitable Access for English Learners, Grades K-6 Mary Soto 2019-12-20 Plain and simple: until our English learners have equitable access to the curriculum, they'll continue to struggle with subject area content. And if you're relying on add-on's to fit in from your language arts basal or a supplementary program, Mary Soto, David Freeman, and Yvonne Freeman are here to equip you with much more effective, efficient, and engaging strategies for helping your English learners read and write at grade level. One assurance right from the start: Mary, David, and Yvonne are not suggesting you reinvent your curriculum. Instead, *Equitable Access for English Learners, Grades K-6*, focuses on how to fortify foundational practices already in place. First, you'll learn more about the Equitable Access Approach, then it's time to dive into the book's four units of study. Drawing on each unit's many strategies, you'll discover how to apply them to any unit in your own language arts curriculum and start differentiating: How to draft and implement language objectives to help English learners meet academic content standards How to make instructional input comprehensible, including translanguaging strategies that draw on your students' first languages when you don't know how to speak them How to utilize the characteristics of text to support readers, along with a rubric for determining a text's cultural relevance How to build students' academic content knowledge and develop academic language proficiency Each unit addresses a commonly taught topic in today's language arts programs and comes with ready-to-go review and preview activities, key strategies, grade-level adaptations, reflection exercises, and printable online resources. Taken as a whole, they constitute an all-new approach for providing that equitable and excellent access our English learners so rightfully deserve. "When you adopt our Equitable Access Approach, your students will not only thrive, they'll also find your language arts curriculum much more meaningful and engaging." —Mary Soto, David E. Freeman, and Yvonne S. Freeman

Elementary Classroom Management: Lessons from Research and Practice Carol Simon Weinstein 2007 Stressing the need to build caring, supportive relationships with and among students, this trusted text offers research-based guidance on effective classroom management. It addresses current concerns about student motivation and helps prospective and beginning teachers develop a philosophy of classroom management that focuses on building connections with students and creating safe, caring classrooms. The text profiles five master teachers (grades K, 1, 3, 4 and 5) in very different school settings as they create classrooms that are orderly and productive, humane and caring. The integration of the thinking and the actual management practices of five real elementary teachers into discussions of research-based management principles prompts readers to connect theories with actual results. Further, the text demonstrates how real teachers can adapt to any circumstances--physical room constraints, curriculum requirements, challenging behaviors--and still be successful.

[A Place to Be Navajo](#) Teresa L. McCarty 2002-02-01 A Place To Be Navajo is the only book-length ethnographic account of a revolutionary Indigenous self-determination movement that began in 1966 with the Rough Rock Demonstration School. Called Diné Bi'ólta', The People's School, in recognition of its status as the first American Indian community-controlled school, Rough Rock was the first to teach in the Native language and to produce a body of quality children's literature by and about Navajo people. These innovations have positioned the school as a leader in American Indian and bilingual/bicultural education and have enabled school participants to wield considerable influence on national policy. This book is a critical life history of this singular school and community. McCarty's account grows out of 20 years of ethnographic work by the author with the Diné (Navajo) community of Rough Rock. The story is told primarily through written text, but also through the striking black-and-white images of photographer Fred Bia, a member of the Rough Rock community. Unlike most accounts of Indigenous schooling, this study involves the active participation of Navajo community members. Their oral testimony and that of other leaders in Indigenous/Navajo education frame and texture the account. Informed by critical theories of education, this book is not just the story of a single school and community. It is also an inquiry into the larger struggle for self-determination by Indigenous and other minoritized communities, raising issues of identity, voice, and community empowerment. A Place To Be Navajo asks whether school can be a place where children learn, question, and grow in an environment that values and builds upon who they are. The author argues that the questions Rough Rock raises, and the responses they summon, implicate us all.
