Network Security 1 and 2

Companion Guide Antoon W. Ruffi 2006 The only authorized Companion Guide for the Cisco Networking Academy Program The Network Security 1 and 2 Companion Guide is designed as a portable desk reference to be used with version 2.0 of the Cisco® Networking Academy® Program curriculum. The author reinforces the material in the two courses to help you to focus on important concepts and to organize your study time for exams. This book covers the overall security process based on security policy design and management, with an emphasis on security

technologies, products, and solutions. The book also focuses on security appliance and secure router design, installation, configuration, and maintenance. The first section of this book covers authentication, authorization, and accounting (AAA) implementation using routers and security appliances and securing the network at both Layer 2 and Layer 3 of the OSI reference model. The second section of this book covers intrusion prevention system (IPS) implementation using routers and security appliances and virtual private network (VPN) implementation using routers and security appliances. New and improved features help you study and succeed in this course: Chapter objectives Review core concepts by answering the questions at the beginning of each chapter. Key terms Note the networking vocabulary to be introduced and refer to the highlighted terms in context in that chapter. Scenarios and setup sequences Visualize real-life situations with details

about the problem and the solution. Chapter Summaries Review a synopsis of the chapter as a study aid. Glossary Consult the all-new glossary with more than 85 terms. Check Your Understanding questions and answer key Evaluate your readiness to move to the next chapter with the updated end-of-chapter questions. The answer appendix explains each answer. Lab References Stop when you see this icon and perform the related labs in the online curriculum. Companion CD-ROM The CD-ROM includes: Interactive Media Elements More than 95 activities that visually demonstrate some of the topics in the course Additional Resources Command reference and materials to enhance your experience with the curriculum *Routers and Routing Basics* Allan Johnson 2007 The only authorized Labs and Study Guide for the Cisco Networking Academy Program, *Routers and Routing Basics CCNA 2 Labs and Study Guide* supplements version 3.1.1 of the Cisco

Networking Academy[registered] Program CCNA[registered] 2 course. This Guide maximizes your understanding of: configuring a router; managing Cisco IOS[registered] Software; selecting a routing protocol; verifying and troubleshooting a network; and implementing basic security with access control lists. Each chapter contains a Study Guide section and a Lab Exercises section. Keep all your completed work on hand in this book to study from later, or take advantage of the perforated pages to tear out and hand in specific material for homework assignments. Over 200 exercises in this book help you learn the concepts and configurations crucial to your success as a CCNA exam candidate. Each chapter is slightly different and includes some or all the following types of exercises: vocabulary matching and completion; skill building activities and scenarios; configuration scenarios; concept questions; journal entries; and internet

research. you review all the commands covered in the chapter. The book includes all 55 labs from the online course with an additional 15 labs in which you can apply your knowledge about the technologies and concepts introduced. You will get ample opportunity for hands-on practice in three different types of labs: Curriculum Labs are step-by-step exercises designed to introduce you to new concepts. Presenting you with detailed instructions and sometimes additional explanations for completing the lab, Curriculum Labs come directly from the CCNA 2 online course; Comprehensive Labs combine the concepts learned from the course and Curriculum Labs into new experiments. These Exercises provide minimal guidance. You are encouraged to complete the Curriculum Labs before moving on to a Comprehensive Lab; and Challenge Labs are unique labs requiring a thorough understanding of the previously learned network concepts. You should complete

all Curriculum Labs and Comprehensive Labs before attempting a Challenge Lab. Additionally, the appendix includes a CCNA 2 Skills-Based Assessment practice lab. be well prepared to continue your networking education in the CCNA courses that follow.
