Assessment as Information Practice Gaby Haddow 2021-12-29 Assessment as Information Practice provides information about a range of collection and service-based assessment approaches that can be applied in different contexts to benefit institutions and the users they serve by enhancing quality, efficiency, and effectiveness. With contributions from practitioners and researchers in Australia, New Zealand, Thailand, and the United States, the chapters discuss practical and theoretical aspects of assessment in collecting institutions. Each chapter focuses on specific assessment approaches or contexts while providing guidance on method and use. The chapters can be read alone or as a series to gain an appreciation of assessment approaches, including assessment-oriented research; storytelling; design thinking; data visualisation; mixed methods assessment for digital resources; data for institutional repository assessment; bibliometric methods; and impact assessment. Assessment as Information Practice serves as a resource for practitioners involved in assessment activities. Detailing the processes and considerations that will contribute to more effective and sustainable assessment programmes, the book is also relevant to faculty, researchers, and students working in the information sector.

The New Walford Guide to Reference Resources Ray Lester 2005 The New Walford highlights the best resources to use when undertaking a search for accurate and relevant information, saving you precious time and effort. For those looking for a selective and evaluative reference resource that really delivers on its promise, look no further. In addition to print sources, The New Walford naturally covers an extensive range of e-reference sources such as digital databanks, digital reference services, electronic journal collections, meta-search engines, networked information services, open archives, resource discovery services and websites of premier organizations in both the public and private sectors. But rather than supplying a list of all available known resources as a web search engine might, The New Walford subject specialists have carefully selected and evaluated available resources to provide a definitive list of the most appropriate and useful. With an emphasis on quality and sustainability, the subject specialists have been careful to assess the differing ways that information is framed and communicated in different subject areas. As a result the resource evaluations in each subject area are prefaced by an introductory overview of the structure of the relevant literature. This ensures that The New Walford is clear, easy-to-use and intuitive. - Publisher.

Handbook on Crime Fiona Brookman 2010-02-01 The Handbook on Crime is a comprehensive edited

volume that contains analysis and explanation of the nature, extent, patterns and causes of over 40 different forms of crime, in each case drawing attention to key contemporary debates and social and criminal justice responses to them. It also challenges many popular and official conceptions of crime. This book is one of the few criminological texts that takes as its starting point a range of specific types of criminal activity. It addresses not only 'conventional' offences such as shoplifting, burglary, robbery, and vehicle crime, but many other forms of criminal behaviour - often an amalgamation of different legal offences - which attract contemporary media, public and policy concern. These include crimes committed not only by individuals, but by organised criminal groups, corporations and governments. There are chapters on, for example, gang violence, hate crime, elder abuse, animal abuse, cyber crime, identity theft, money-laundering, eco crimes, drug trafficking, human trafficking, genocide, and global terrorism. Many of these topics receive surprisingly little attention in the criminological literature. The Handbook on Crime will be a unique text of lasting value to students, researchers, academics, practitioners, policy makers, journalists and all others involved in understanding and preventing criminal behaviour.
