She speaks to her audience as a dedicated professional to professional. I could only hope that my students would read and retain her words of wisdom." "-Anna L. Bolling, California State University-Stanislaus" "I haven't seen any books that come close to what Carol Olson has developed." The New York Times Book Review 1970

A Hard Rain Frye Gaillard 2018-07-01 Frye Gaillard has given us a deeply personal history, bringing his keen storyteller's eye to this pivotal time in American life. He explores the competing story arcs of tragedy and hope through the political and social movements of the times — civil rights, black power, women's liberation, the War in Vietnam, and the protests against it. But he also examines the cultural manifestations of change — music, literature, art, religion, and science — and so we meet not only the Brothers Kennedy, Martin Luther King Jr and Malcolm X, but also Gloria Steinem, Janis Joplin, Jimi Hendrix, Johnny Cash, Harper Lee, Mister Rogers, Rachel Carson, James Baldwin, Andy Warhol, Billy Graham, Thomas Merton, George Wallace, Richard Nixon, Angela Davis, Barry Goldwater, the Beatles, Bob Dylan, and the Berrigan Brothers. "There are many different ways to remember the sixties," Gaillard writes, "and this is mine. There was in these years the sense of a steady unfolding of time, as if history were on a forced march, and the changes spread to every corner of our lives. As future generations debate the meaning of the decade, I hope to offer a sense of how it felt to have lived it. A Hard Rain is one writer's reconstruction and remembrance of a transcendent era — one that, for better or worse, lives with us still." *Harper Lee's To Kill a Mockingbird* Anita Price Davis 1994 REA's MAXnotes for Harper Lee's *To Kill a Mockingbird* MAXnotes offer a fresh look at masterpieces of literature, presented in a lively and interesting fashion. Written by literary experts who currently teach the subject, MAXnotes will enhance your understanding and enjoyment of the work. MAXnotes are designed to stimulate independent thought about the literary work by raising various issues and thought-provoking ideas and questions. MAXnotes cover the essentials of what one should know about each work, including an overall summary, character lists, an explanation and discussion of the plot, the work's historical context, illustrations to convey the mood of the work, and a biography of the author. Each chapter is individually summarized and analyzed, and has study questions and answers.

Harper Lee's To Kill a Mockingbird Michael J. Meyer 2010-10-14 In 1960, *To Kill a Mockingbird* was published to critical acclaim. To commemorate *To Kill a Mockingbird*'s 50th anniversary, Michael J. Meyer has assembled a collection of new essays that celebrate this enduring work of American literature. These essays approach the novel from educational, legal, social, and thematic perspectives. Harper Lee's only novel won the Pulitzer Prize and was transformed into a beloved film starring Gregory Peck as Atticus Finch. An American classic that frequently appears in middle school and high school curriculums, the novel has been subjected to criticism for its subject matter and language. Still relevant and meaningful, *To Kill a Mockingbird* has nonetheless been under-appreciated by many critics. There are few books that address Lee's novel's contribution to the American canon and still fewer that offer insights that can be used by teachers and by students. These essays suggest that author Harper Lee deserves more credit for skillfully shaping a masterpiece that not only addresses the problems of the 1930s but also helps its readers see the problems and prejudices the world faces today. Intended for high school and undergraduate usage, as well as for teachers planning to use *To Kill a Mockingbird* in their classrooms, this collection will be a valuable resource for all teachers of American literature.

2030 Mauro F. Guillén 2020-08-25 AN INTERNATIONAL BESTSELLER Wall Street Journal Bestseller A Porchlight Book Bestseller Financial Times Best Books of 2020 Yahoo Finance Favorite Business Books of 2020 JP Morgan NextList 2021 selection "Bold, provocative...illuminates why we're having fewer babies, the middle class is stagnating, unemployment is shifting, and new powers are rising." — ADAM GRANT The world is changing drastically before our eyes—will you be prepared for what comes next? A groundbreaking analysis from one of the world's foremost experts on global trends, including analysis on how COVID-19 will amplify and accelerate each of these changes. Once upon a time, the world was neatly divided into prosperous and backward economies. Babies were plentiful, workers outnumbered retirees, and people aspiring towards the middle class yearned to own homes and cars. Companies didn't need to see any further than Europe and the United States to do well. Printed money was legal tender for all debts, public and private. We grew up learning how to "play the game," and we expected the rules to remain the same as we took our first job, started a family, saw our children grow up, and went into retirement with our finances secure. That world—and those rules—are over. By 2030, a new reality will take hold, and before you know it: - There will be more grandparents than grandchildren - The middle-class in Asia and Sub-Saharan Africa will outnumber the US and Europe combined - The global economy will be driven by the non-Western consumer for the first time in modern history - There will be more global wealth owned by women than men - There will be more robots than workers - There will be more computers than human brains - There will be more currencies than countries All these trends, currently underway, will converge in the year 2030 and change everything you know about culture, the economy, and the world. According to Mauro F. Guillen, the only way to truly understand the global transformations underway—and their impacts—is to think laterally. That is, using "peripheral vision," or approaching problems creatively and from unorthodox points of view. Rather than focusing on a single trend—climate-change or the rise of illiberal regimes, for example—Guillen encourages us to consider the dynamic inter-play between a range of forces that will converge on a single tipping point—2030—that will be, for better or worse, the point of no return. 2030 is both a remarkable guide to the coming changes and an exercise in the power of "lateral thinking," thereby revolutionizing the way you think about cataclysmic change and its consequences.
