**Regulatory Hacking** Evan Burfield 2018-06-19 Named by Inc. magazine as one of the 10 Best Business Books of 2018 Every startup wants to change the world. But the ones that truly make an impact know something the others don't: how to make government and regulation work for them. As startups use technology to shape the way we live, work, and learn, they're taking on challenges in sectors like healthcare, infrastructure, and education, where failure is far more consequential than a humorous chat with Siri or the wrong package on your doorstep. These startups inevitably have to face governments responsible for protecting citizens through regulation. Love it or hate it, we're entering the next era of the digital revolution: the Regulatory Era. The big winners in this era--in terms of both impact and financial return--will need skills they won't teach you in business school or most startup incubators: how to scale a business in an industry deeply intertwined with government. Here, for the first time, is the playbook on how to win the regulatory era. "Regulatory hacking" doesn't mean "cutting through red tape"; it's really about finding a creative, strategic approach to navigating complex markets. Evan Burfield is the cofounder of 1776, a Washington, DC-based venture capital firm and incubator specializing in regulated industries. Burfield has coached startups on how to understand, adapt to, and influence government regulation. Now, in *Regulatory Hacking*, he draws on that expertise and real startup success stories to show you how to do the same. For instance, you'll learn how...  
\* AirBnB rallied a grassroots movement to vote No on San Francisco's Prop F, which would have restricted its business in the city. \* HopSkipDrive overcame safety concerns about its kids' ridesharing service by working with state government to build trust into its platform. \* 23andMe survived the FDA's order to stop selling its genetic testing kits by building trusted relationships with scientists who could influence the federal regulatory community. Through fascinating case studies and interviews with startup founders, Burfield shows you how to build a compelling narrative for your startup, use it to build a grassroots movement to impact regulation, and develop influence to overcome entrenched relationships between incumbents and governments. These are just some of the tools in the book that you'll need to win the next frontier of innovation.

*Addressing Violence Against Women on College Campuses* Catherine Kaukinen 2017-07 Violence against women on college campuses has remained underreported and often under addressed by both campus security and local law enforcement, as well as campus administrators. The researchers, practitioners, and activists who contribute to this pertinent volume *Addressing Violence Against Women on College Campuses* examine the extent, nature, dynamic and contexts of violence against women at institutions of higher education. This book is designed to facilitate an ongoing discussion and provide direction on how best to prevent and investigate violence against women, and intervene to assist victims while reducing the impact of these crimes. Chapters detail the necessary changes and implications that are part of Title IX and other federal legislation and initiatives as well as the effect these changes have had for higher education actors, including campus administrators, victim advocates, and student activists. The contributors also explore the importance of campus efforts to estimate the extent of violence against women; educating young men and women on the nature of sexual and dating violence; and shifting efforts to both make offenders accountable for their crimes and prompt all bystanders to act. *Addressing Violence Against Women on College Campuses* urgently argues to make violence prevention is not separate from but rather an integral part of the student experience. Contributors include: Antonia Abbey, Joanne Belknap, Ava Blustein, Stephanie Bonnes, Alesha Cameron, Sarah L. Cook, Walter S.

DeKeseredy. Helen Eigenberg, Kate Fox, Christopher P. Krebs, Jennifer Leili, Christine Lindquist, Sarah McMahon, Caitlyn Meade, Christine Mouton, Matt R. Nobles, Callie Marie Rennison, Meredith M. Smith, Carmen Suarez, and the editors.

The Business of Race: How to Create and Sustain an Antiracist Workplace—And Why it's Actually Good for Business Margaret H. Greenberg 2021-08-31 This book is not written specifically for White readers, Black readers, readers who are Latino, Asian, or other specific racial or ethnic groups. If you are a business leader, individual contributor, Human Resources or DEI (Diversity, Equity and Inclusion) professional, educator, coach, or consultant, then *The Business of Race* is for you. In the business world, incident-driven, company position statements on Black Lives Matter or Stop Asian Hate are not proxies for the heavy lifting that will penetrate and sustain a shift in the status quo. Advancing racial equity to disrupt institutional racism requires more than a company-wide memo or a tab on a corporate website. Businesses often water down, negate or skirt this reality by touting successes from its cousin—diversity. However, you cannot advance a strategy you do not name. The general term “diversity” enables that dynamic. It's impossible to create an antiracist workplace when we avoid speaking the words “race” and “racism.” Co-authored by two business women, one Black and one White, *The Business of Race* can help us all prepare for this transformative work. Rather than diving headfirst with well-meaning but ineffectual efforts, we must first ready our organizations. The authors outline both the inner work (raising our own individual awareness and creating new ways of thinking and being), and the outer work organizations must undertake. This includes honest and often uncomfortable discussions. And carrying out as core to operational business strategy and performance, policies and practices to reimagine a racially equitable workplace. Whether you're a rising entrepreneur, a supervisor or manager, a leader of a large multinational company, or a frontline employee, you'll find concrete actions in this essential guide: Why Racial Diversity, Why Now - A Competitive Advantage Commitment, Specificity, and the Science of Small Wins Uncomfortable Truths and Fearless Leaders Look for Talent Where Others Are Not No Secrets in Pay and Promotions - Close the Wage Gap Discover Your “E” and Measure its Impact Woven throughout *The Business of Race* are interviews with dozens of business professionals across myriad industries, fields and organizational levels. Their stories bring voice to the challenges and opportunities businesses face every day, and provide readers with the courage and tools to openly, honestly, and effectively address the deeply complex, emotional and intimidating dynamic of race and racism in the workplace.
