**Motivation in Learning and Performance in the Arts and Sports** Adina Mornell 2025-02-27

Motivation is a crucial factor in achieving success in any field, but especially in the performing arts and sports, where consistent practice, discipline, and creativity are required to maintain a high level of performance. The science of motivation is relevant today more than ever for several reasons. First, motivation is a fundamental aspect of human behavior, and understanding what drives individuals to perform at their best is essential in many

contexts, including education, athletics, and the workplace. In this period of recovery and reset after pandemic-related lockdowns, knowledge about motivation can inform personal and policy decisions moving forward. Second, motivation is critical for achieving goals, and an understanding of what motivates individuals can help them aspire to set and achieve realistic and meaningful aims. Third, motivation is essential for maintaining mental and physical health and wellbeing, and an exploration of contributory factors can help individuals manage stress and anxiety.

**Writing First with Readings** Laurie G. Kirszner 2011-12-28 Best-selling authors and veteran college writing instructors Laurie Kirszner and Stephen Mandell believe that students learn to write best when they use their own writing as a starting point. In *Writing First with Readings: Practice in Context*, designed for the paragraph to essay course, Kirszner and Mandell take seriously the ideas and expressive abilities of developmental students, as well as their need to learn the rules of writing and grammar. Visual writing prompts that open every chapter get students writing immediately. By moving frequently between their own writing,

writing models and instruction, and workbook-style mastery exercises, students get constant reinforcement of the skills they are learning. Thoughtful chapters on college success, research, and critical reading, along with high-interest essays, round out the text, making it the perfect introduction to college writing. Read the preface.

*Focus on Writing* Laurie G. Kirszner 2019-10-09 *Focus on Writing* offers clear, thorough coverage of college writing, with a chapter design that puts writing first. The *Focus on Writing* strand in Chapters 2-17 prompts students to write, learn essential concepts as they follow a student model, and apply those concepts to their own writing in a series of manageable steps. The text also empowers students with a unique tool for assessing and revising their work: the easy-to-grasp, easy-to-remember TEST (Topic sentence or Thesis statement, Evidence, Summary statement, and Transitions). *Real Essays with Readings with 2009 MLA Update* Susan Anker 2009-06-23 Click here to find out more about the 2009 MLA Updates and the 2010 APA Updates. Real Essays with Readings is the essay-level book in Susan Anker's highly successful series of writing texts

that motivate students with their message that writing is an essential skill in college and in real life — and that this skill is achievable. Anker's advice, examples, and assignments show the relevance of writing to all aspects of students' lives, and profiles of former students prove that success is attainable. Like all the books in the Anker series, Real Essays presents writing in logical, manageable increments: step-by-step writing guides and a focus on the "four basics" of each mode of writing keep students from becoming overwhelmed. Real Essays maintains its emphasis on what really matters by focusing on the four most serious errors (fragments, run-ons, subject-verb agreement problems, and verb form problems). Real Essays gives students what they need to succeed in college and become stronger academic writers.
