Atouts 1 for Edexcel As French Teacher's Guide
Pearson Education 2008-08-16

Constructing History 11-19 Hilary Cooper 2009-07-09 This book describes and exemplifies strategies for teaching history across the 11-19

age range in rigorous and enjoyable ways. It illustrates active learning approaches embedded in pupil-led enquiries, through detailed case studies which involve students in planning and carrying out historical enquiries, creating accounts and presenting them to audiences, in ways that develop increasingly sophisticated historical thinking. The case studies took place in a number of different localities and show how practising teachers worked with pupils during each year from Y6/7 to Y 13 to initiate, plan and implement enquiries and to present their findings in a variety of ways. Each case study is a practical example which teachers can use as a model and modify for their own contexts, showing how independent learning linked to group collaboration and peer assessment can enhance learning. Social constructivist theories of learning applied to historical thinking underpin the book, with particular emphasis on links between personalised and collaborative learning and e-learning.

The Complete Guide to Becoming an English Teacher Stephen Clarke 2004-03-22 `I could not help but admire the breadth and scope of this text. This is a book I would recommend to all, no matter what route they take to train as a teacher of English. It is aimed at secondary teachers but would be equally useful for those preparing to teach in further education. Not only does it provide concise and balanced accounts of key pedagogic issues, it also includes a range of interesting and engaging lesson suggestions. This book does cover a lot of ground with excellent chapters on planning, assessment, teaching reading and teaching poetry. This is a text that should accompany every student teacher of English and find its way on to the shelf of all practising teachers. This book excited me. It is written in a style that makes you want to try out activities and take up challenges. This book will encourage the student teacher to
