Inside Education Stephen O'Brien 2015-12-22 To learn more about learning – what it is and how it works – it is necessary to look inside education. Inside Education takes the reader on a journey of four 'live' education projects: the first all-Irish speaking, mixed-gendered, multi-faith primary school in the Republic of Ireland ideally suited to exploring learning identity; an alternative post-primary school for those who leave (or are left behind by) the formal education system also based in the Republic of Ireland and ideally suited to exploring personal learning; an early college school that enables students to simultaneously sit their high-school diploma and college exams based in Queens, New York and ideally suited to exploring learning success; and an adult education training centre that works with 'landless' movement members based in Brazil and ideally suited to exploring learning power. Using a critical ethnography approach, each research narrative naturally unfolds/enfolds to tell a more complete learning story. All those interested in education are primed readers. By (re-)viewing their own learning outlook, they may begin to advance deeper critical ideas and debates in education. They may come to (re-)represent education, reminding public consciousness of its human stories, as well as its curious, intricate and powerful qualities. And they may (re-)discover 'other' roads to raise a scholar. Teachers, educational researchers, parents and guardians will be particularly interested readers. 'Inside Education is a thought-provoking, challenging and revealing journey inside the world of education and learning. Its exploration of school and classroom practices in a range of different settings provides important insights into how we learn – a central aspect of our education system which remains overlooked and understudied. In doing so, it lays down a challenge to policy-makers and educators everywhere to think differently about the way we learn and, ultimately, help students fulfil their real potential.' -Carl O'Brien, Chief Reporter for The Irish Times 'Inside Education is a stunning example of passionate scholarship that nonetheless refuses a redemptionist stance. The ethnography captures people and contexts and draws the reader into the four sites of learning in fluent and lyrical prose. This is facilitated by the extensive use of research notes deploying historical, comparative, literary, artistic and scholarly sources.' -Denis O'Sullivan, Emeritus Professor of Education, University College Cork, Ireland
Hatching Tier Two and Three Interventions in Your Elementary School Counseling Program Trish Hatch 2019-10-24 Ready your school counseling program for the kids who need it the most! For many students, elementary school is a time of tough transitions. When a student struggles in class, has difficulty making friends, experiences a life-changing event or crisis, or faces other challenges, your support is essential. Finding the right intervention for each identified student can be the key to that child's future success. In this companion book to The Use of Data in School Counseling and Hatching Results for Elementary School Counseling, Trish Hatch, Ashley Kruger, Nicole Pablo and Whitney Triplett offer a systematic, evidence-based approach to creating and implementing high-quality interventions within a Multi-Tiered System of Support (MTSS). This hands-on guide features: • Thorough exploration and explanation of Tier 2 and Tier 3 activities • Guidelines for progress monitoring and collaboration with teachers and family • Templates for developing lesson plans and action plans • Web-based resources, including downloadable templates and a discussion guide • Personal stories and vignettes from practicing school counselors and teachers of the year Every student deserves a quality education in a positive, healthy, safe environment. When you provide targeted, data-driven interventions for students in need, you make that possible for them—and improve school life for their classmates and teachers as well.

Ending Social Promotion Without Leaving Children Behind Jennifer Sloan McCombs 2009-10-15 The New York City Department of Education asked RAND to conduct an independent longitudinal evaluation of its 5th-grade promotion policy. The findings of that study, conducted between March 2006 and August 2009, provide a comprehensive view of the policy's implementation and its impact on student outcomes, particularly for students at risk of retention and those who were retained in grade.
