Resources in Education 2001

The National Guide to Educational Credit for Training Programs 2002 (Ace) American Council on Education 2005 For over 25 years, this guide has been the trusted source of information on over 6,000 educational programs offered by business, labor unions, schools, training suppliers, professional and voluntary associations, and government agencies. These programs provide educational credit to students for learning acquired in noncollegiate settings. Each entry in the comprehensive National Guide provides: BL Course title as assigned by the participating organization BL Location of all sites where the course is offered BL Duration in contact hours and days or weeks BL The period during which the credit recommendation applies BL The purpose for which the course was designed BL The abilities or competencies acquired by the student upon successful completion of the course BL The teaching methods, materials, equipment, and major subject areas covered BL College credit recommendations offered in four categories (by level of degrees) and expressed in semester hours and subject area(s) in which credit is applicable. The introductory section includes the Registry of Credit Recommendations, an ACE College Credit Recommendation Service transcript system.

Model Curriculum Standards, Program Framework, and Process Guide for Industrial and Technology Education in California California. Department of Education 1990 This three-section document contains the model curriculum standards, program framework, and process guide that will assist schools in California in providing career-vocational education programs that are responsive to a world marketplace characterized by constantly changing technology. The standards and frameworks can be implemented to provide a K-12 sequenced curriculum that is coordinated and articulated to form a total program. The standards address general employability, occupational clusters, job-specific skills, and student leadership skills. In addition, they complement and reinforce the core academic skills that are applicable to each of the career models. The guide's first section, the model program framework, sets forth the broad conceptual components of the program and defines the application of each component. The model curriculum standards section describes in detail the objectives, application, and organization of the model standards. Each standard is organized in a format that includes an initial statement, the standard, and academic core skills enhancement. Standards are provided for children, for explorations, and for specialized fields. The curriculum process guide section provides information on: (1) the curriculum comparison process; (2) using the state model to construct a course outline; (3) using the model curriculum standards to construct a lesson plan; and (4) teacher-developed student materials. Appendices provide: (1) California Basic Educational Data System codes; (2) a program sequence example; (3) sample district course outline; (4) a glossary; and (5) 30 references. (KC)
