Persuasive Technology B.J. Fogg 2003-01-04 Can computers change what you think and do? Can they motivate you to stop smoking, persuade you to buy insurance, or convince you to join the Army? Fogg has coined the phrase "Captology" (an acronym for computers as persuasive technologies) to capture the domain of research, design, and applications of persuasive computers. In this thought-provoking book, based on nine years of research in captology, Dr. Fogg reveals how Web sites, software applications, and mobile devices can be used to change people's attitudes and behavior.
