This guide is for first-time NOCE candidates, retake candidates closing knowledge gaps, apprentice opticians pursuing voluntary ABO certification, optical dispensing students needing structured practice, and experienced opticians preparing for recertification.

————— WHY IT WORKS

Most ABO prep books give you content summaries and a handful of questions. This

guide gives you a complete system — 40% comprehensive clinical content and 60% rigorous practice assessment. Six full-length timed simulations build the stamina and pacing confidence that separate passing candidates from those who retake. The examination fee is \$225. One failed attempt costs more than this book and weeks of your time. Invest in the right preparation now.

————— WHAT CANDIDATES SAY

"The questions are harder than the actual exam — nothing surprised me on test day." "I failed with another guide. This one covered everything it missed. Passed on my second attempt." "The answer explanations alone are worth the price."

————— Over 30,000 opticians hold active ABO certification. Twenty-three states recognize or require it for licensure. The NOCE is your path to that credential — and this guide is your most

complete, most current, and most rigorous preparation for passing it. This is an independent educational resource not affiliated with or endorsed by ABO-NCLE or Prometric. Scroll up and click Buy Now. Your certification is within reach.
