Biological Science Freeman 2002-03 By Warren Burggren, University of North Texas; Jay Brewster, Pepperdine

University; Laurel Hester, South Carolina Governor's School for Science and Mathematics. Rather than repeat what is covered in the textbook, the Student Study Guide will help students study biology and think like a scientist. Introductory chapters on Data Interpretation, Looking for Relationships, Experimentation and Writing will be illustrated and developed for the student. Each text chapter will then be covered with the goal of reinforcing the ideas mentioned in introductory chapters and to tie them to appropriate topics within a chapter.
