Financial Independence (Getting to Point X) John J. Vento 2013-03-07

Discover the ten key issues to achieving your financial goals and how to use them to realize your dream of financial independence From saving to purchase a first car, to putting kids through college to planning for retirement, to preserving your estate for your loved ones, our financial goals change from one stage of life to the next. While those goals and the challenges we face in achieving them may differ, all of them have certain things in common. Saving, budgeting, managing debt, minimizing taxes and living within your means. These are a few of the 10 Key Wealth Management Issues which come into play (to varying degrees) when working toward specific financial goals. But there's one goal for which success relies on all ten keys coming together in perfect harmony: financial independence, also known as "Point X." No matter how you define it—whether it's a retirement income of \$25,000 a year, or an estate worth \$250 million—your future financial independence requires

that you deal effectively with all ten key issues. And now this book shows you how to get it done, along with the guidance of a trusted advisor. Supplies you with a complete roadmap for arriving at "Point X," financial independence with key milestones and important twists and turns clearly defined Identifies the 10 key wealth management issues and offers priceless advice and guidance on negotiating each on your road to financial independence Provides you with both success and failure stories so you can learn from others' real life experiences Provides you with tax planning facts and strategies within the wealth management issues that will show you how to minimize your most significant expense and at the same time maximize your savings on the road to your "Point X"

The Solomon Exam Prep Guide Ken Clark (CFP.) 2010 Ned Ryerson.

That's who a lot of people picture when they think of insurance agents. Don't remember Ned? Sure you do. He was the "cheesy" insurance agent from the Bill Murray classic Groundhog Day. In Ned, we see examples of what can go so horribly awry with the insurance sales process - someone who gets people to sign on the dotted line because it's the only way they can escape him, someone who is far more of a salesman than a trusted advisor, and of course, someone who is living commission-to-commission, putting his own survival above his clients' needs. The reason all these things make Ned our "anti-mascot" is that if you fail to grasp the danger of these things, you'll undoubtedly place major obstacles between you and your career goals. Starting of course, with your quest to pass the licensing exam. Thus, the goal of this book is twofold. First and foremost, I want to help you pass the exam, and do so by a wide margin. I don't want it to be even close. I want your state's insurance commissioner to be so blown away by your score that he takes your exam home and hangs it up on his refrigerator. But second, I want this book to become the basis for your career. I want it to help shape the way you approach insurance sales so that you not only help protect others against loss, but protect yourself (and your hard-earned license) as well. Even more, I want it to protect you against an average career. I want this book to help insure your financial success. Interested? If you are, then you're in for

some exciting lessons about insurance theory, products, and sales. I'll share with you both the practical and conceptual knowledge you need to get to where you want to go.
