**The Teacher's AI Workbook: Lesson Plans in 60 Seconds** Depth Trust Press 2026-03-19 You became a teacher to make a difference, not to spend your weekends buried in planning. Yet the demands of the job keep growing while your time keeps shrinking. You lie awake on Sunday nights wondering how you will get it all done. The lessons, the differentiation, the worksheets, the assessments, the emails home. It is too much for one person. But what if you did not have to do it alone? This book introduces you to your new digital co-teacher. Not a replacement for your expertise, but a partner that handles the heavy lifting so you can focus on what matters most. Your students. Inside these pages, you will discover how to generate complete lesson outlines in under a minute,

create differentiated materials for all your learners, design engaging worksheets and handouts, build better assessments in half the time, and draft clear parent communication without staring at a blank screen. All using simple prompts that anyone can master, no tech expertise required. Written by an educator who understands the real pressures of the classroom, this workbook is practical, friendly, and immediately useful. Each chapter walks you through a different part of your teaching life, from planning to assessment to classroom management. You will learn not just what to ask, but how to ask it, with dozens of ready to use prompts you can adapt for your own students and subjects. The book also tackles the tough questions about ethics and transparency, helping you have honest conversations with students about when and how to use AI responsibly. Whether you teach elementary or high school, math or English, science or social studies, the strategies in this book will save you hours every week. Hours you can use to connect with students, refine your practice, or simply breathe. The future of teaching is not about working harder. It is about working smarter. This workbook shows you how.
