Early childhood education for sustainable development in communities Mariëtte Koen 2025-12-05

This second volume in the NWU Community-based Educational Research Series presents scholars' drawings on their intellectual resources, research expertise and extensive craft wisdom to vivify early childhood education in marginalised, disadvantaged African communities. Across 10 chapters, the book examines principles of sustainable development in early childhood contexts, structured around three themes: first, strengthening early childhood care and education management and quality; second, play, motor development and sustainability; and third, language development in the early years. By employing participatory action learning research approaches, the authors illustrate how communities of practice and action learning groups enable teachers, practitioners, parents, guardians and researchers to collaboratively develop mechanisms to address and overcome barriers to provide children quality education. Through empirical data, the authors highlight how direct engagement with community members in these communities fosters innovative, contextually grounded strategies aligned with the United Nations' 2030 Agenda for Sustainable Development, particularly Sustainable Development Goal 4 on inclusive, equitable and quality education. The chapters illustrate how research driven by indigenous knowledge, collaboration and sustainability principles can develop and reinforce practitioners' skills in historically-marginalised African communities to inspire young children to grow as confident, active learners and socially responsible citizens. This novel collection is not only authored by scholars for scholars but also for policymakers, inviting peers to critically reflect on how dynamic and productive relationships between higher education institutions and early childhood centres can foster sustainable development and transformation.

Enhancing Education Through Open Degree Programs and Prior Learning Assessment Stevenson, Carolyn N. 2018-05-11 The rising cost of tuition, increasing competition, and mounting student loan debt has caused educational leaders to rethink degree programs and resources for learners. As such, open educational resources, prior learning assessment, open degree plans, and competency-based learning have gained popularity in the field of higher education. *Enhancing Education Through Open Degree Programs and Prior Learning Assessment* is a critical scholarly resource that examines teaching and learning materials that learners may freely use and reuse without charge. Featuring coverage on a broad range of topics such as open educational resources, prior learning assessment, and competency-based learning, this book is geared towards educators, professionals, school administrators, researchers, academicians, librarians, and students seeking current research on equity and access to higher education for all learners across the globe.

Building Institutions for Resilience Andrew Simmons 2023-04-29 This volume uses a case study approach to present data on the relevance and effectiveness of the strategic actions implemented by NGOs, IGOs and governments at national, regional, and international scales, drawing lessons and recommendations to enhance the capacity of governments and institutions to deliver on climate change adaptation and sustainable development initiatives. The authors provide insights to policymakers, community leaders, students and researchers working on climate change adaptation and resilience-building practices and strategies in vulnerable communities, including small island developing states and post-conflict states, focusing on innovative management practices and institutional capacity building. The cases presented here provide insights into how institutions can strengthen local, national, and regional capacities to adapt to climate change and other calamities.

Children in South African Families Nene Ernest Khalema 2016-09-23 This book presents a

comprehensive overview of African children's lives in times of transition, transformation, and change some twenty-two years after political emancipation in South Africa. With diverse family formations, non-marital childbearing, and diverse parenting situations prevalent in South Africa, the book covers both the conceptual and theoretical questions that explore the context of children's experiences. It uses examples from a range of primary and secondary data sources to illustrate how resilience in children faced with adversity could be nurtured, demonstrating the links between theory and practice, and critically commenting on questions of epistemology by drawing on research with children within different African social and cultural contexts. While the volume affirms the complexities of explaining child adversity or privilege, it stresses the diversity of South African children's experiences and the importance of adopting both children's rights and Afro-centric perspectives to account for the commonality and diversity of childhood and children's empowerment in diverse family systems. The contributions also provide recommendations on how to respond and intervene in children's issues, from both practical and policy levels, in a dedicated manner to ensure that children are protected from harm, nurtured to succeed, and assisted during and after traumatic experiences. This volume represents a valuable resource for scholars and students in the fields of humanities, social science, development studies and public health, as well as policy makers, child practitioners, and child rights advocates.

Transforming Unequal Gender Relations in India and Beyond Saroj Pachauri 2023-09-08 This book offers a unique intersectional perspective on gender equality, SDG5. It presents an intersection of gender with caste, class, region, ethnic and sexual identities, and other structural drivers of inequalities in various development sectors. It presents case studies and empirical findings from development practice and policymaking and highlights the challenges to implementing SDG5 in practice. It discusses policies to promote gender equality and prevent violence against women and girls, and women in decision-making and leadership positions. The chapters restate that gender equality is possible only if unequal gender norms are transformed to recognize women and girls as independent economic entities and not merely homemakers providing unpaid care. It also analyzes to deconstruct the idea of monolithic masculinity to recognize gender diversity and men's role in providing care. The book shows how much has been achieved, yet how far is also left to go. It is an essential reference point for researchers, policymakers, students, and scholars across gender studies, women's studies, and sociology.

Get Your Child Ready for an IQ Test and for Gifted Child Qualification Process The L. I. B The L.I.B Child Development Association 2015-07-08 Intelligent test secrets revealed for the first time. This book uncovers the various types of questions that children are being asked on different intelligence and gifted programs evaluation tests and provides the tools that will allow children to excel and maximize their potential. Many grade-school children are required to take intelligence evaluation tests or gifted-program qualification tests. These tests are usually aimed at predicting the child's ability to participate and cope with tasks that require a high intelligence level. The tests pretend to be objectives and provide a non-biased indication of the child's ability. However, studies have shown that this is not the case, and children who were prepared and practice similar tests get significantly higher results. True, someone who is not intelligent will not be able to get high results even after massive training. Still, training allows gifted, intelligent children to realize their full ability and make the most of the stressful test situation; 10%-25% improvement is guaranteed for every child. In this book you will find over seventy sample tests, covering twelve different types of questions, including: * General knowledge and vocabulary* Verbal comprehension* Conceptual relations* Shape sequences and matrices * Arithmetic problem solving and series * Pattern recognition. In addition to the sample tests, a thorough explanation for all types of questions is provided, covering all possible variations, demonstrating the best methods and strategies and providing useful tips and tricks. This is the only available book that provides this kind of thorough preparation for all types of IQ tests,

through fun parent-child quality-time bonding experiences.

Empowering Novice Academics for Student Success Dr Johann Hugo 2021-04-26 This book is essential for academics that enter the field of higher education and training, as it focuses on preparing teachers and trainers to respond appropriately to student success challenges. Student success is a burning issue, both globally and locally. While student achievement is determined by a combination of factors, teachers and their teaching practices do matter. Higher education teachers are expected to fulfil different roles at different times, such as planning for curriculum implementation, mentorship and coaching, facilitating learning, resource development, and student assessment. Against this background the primary purpose of Empowering novice academics for student success: Wearing different hats is building the capacity of novice teachers and trainers to play an influential role in increasing student success throughout.
