You can expect to see a number of changes in your child's fifth grade class based on the requirements of the Common Core standards. In an effort to address Common Core Reading requirements, students will now read more Informational Texts in their English/Language Arts assignments. To address Common Core Math requirements, students will spend more time developing their understanding of specific and important math concepts. Students will be expected to both demonstrate understanding of each topic and apply their mathematical skills to real-world situations. As a parent, it is important not only to understand the new Common Core 5th grade standards, but also to have the tools to help your child do his or her best in school.
