*Teaching and Learning Argument* Richard Andrews 1995 This text advocates bringing the teaching and learning of argument to the centre of the curriculum, based on the understanding that argument is essential to the development of thinking skills. Its scope is broad, analyzing the function of argument from early childhood education to university study.

**Young Writers at Transition** Daniel C. Tabor 2004 Daniel Tabor discusses the teaching and uses of writing as pupils move from year 6 at primary school to year 7 at the secondary school. He covers issues of literacy practice, how writing is taught and used in transition, and continuity.

**Writing at University** Phyllis Creme 2003-06 "This is a writing guide for someone who is

prepared to sit down and read about the process of writing and who prefers the support of a sympathetic tutor rather than a source of reference or a compendium of rules. It's the sort of book which holds you by the hand and talks you gently through the issues." Roy Johnson, Mantex What is expected of you in university writing? What can you do to develop and build confidence in your writing? How can you address the variety of written assignments you will encounter in your studies? Writing at University is a student writing guide with a difference. It provides a deeper understanding of what writing at university is all about, with useful methods and approaches to give you more control over your academic writing. The book explores both traditional essay and other kinds of writing that you will need to do as part of your

studies. You are encouraged to build upon your existing abilities as a writer through applying practical tasks to your own work. The second edition of this best-selling title has been completely updated with new coverage of report writing, learning journals, electronic writing and using the internet. This book is an essential tool for anyone who wants to improve their writing skills at university or FE colleges, including both undergraduates and postgraduate students. It is key reading for students in courses that require essay, report, or dissertation writing and for students returning to study. It is also an invaluable resource for academic staff who want to support students with their writing.

**School Writing** Yanina Sheeran 1991 Many children who seem to understand what they are taught in lessons go on to produce written work that is inadequate. This text, written for secondary school teachers, offers an analysis of classroom writing, revealing the rules and expectations which pupils have to satisfy

whenever they write.

**Learning and Teaching Genre** Aviva Freedman 1994 This collection examines academic genres - types of writing produced by students in secondary school and college - from the perspective of genre as social action. Such a perspective expands the understanding of what students do when they learn new school genres, of what teachers and institutions do to enhance and constrain such learning, and of what all this signifies for conceptions of writing pedagogy. The book begins with an overview of the reconception of genre study. The essays that follow have an interest in genre, particularly those that appear in educational settings as instances of either student reading or writing. Common motifs recur throughout: questions are raised concerning learning and teaching new genres, the ideological power of genres read and

Throughout, the contributors give detailed accounts of successful classroom practices. Learning and Teaching Genre brings recent developments in research and thinking about written genres to the attention of high school and college teachers, and illustrates how that work can effectively inform classroom practice. *New Society* 1988

It covers the Thematic Study Component 12 and all three Literature and Culture options (Components 21-23): Thematic Study: Women in the Ancient World by Robert Hancock-Jones Literature and Culture 1: The Homeric World by Dan Menashe Literature and Culture 2: Roman City Life by James Renshaw

Literature and Culture 3: War and Warfare by James Renshaw How much can we know about the lives of women in the ancient world? Why is the hero Odysseus such an interesting character? What was it like to watch a gladiatorial fight? Why was the Roman army so successful? This book guides GCSE students to a greater understanding of such issues. The opening chapter examines the lives of women in Greece and Rome, and also focuses on women in myth and legend. **You Can't Write That** Laura Aull 2023-11-23  
People read and write a range of English every day, yet what counts as 'correct' English has been narrowly defined and tested for 150 years. This book is written for educators, students, employers and scholars who are seeking a more

just and knowledgeable perspective on English writing. It brings together history, headlines, and research with accessible visuals and examples, to provide an engaging overview of the complex nature of written English, and to offer a new approach for our diverse and digital writing world. Each chapter addresses a particular 'myth' of "correct" writing, such as 'students today can't write' or 'the internet is ruining academic writing', and presents the myth's context and consequences. By the end of the book, readers will know how to go from hunting errors to seeking (and finding) patterns in English writing today. This title is also available as open access on Cambridge Core.
