The Road to Success with MTSS Tom Hierck 2022-09-09 This is the roadmap educators need to create a customized intervention system for their unique circumstances. Packed with research-based strategies, *The Road to Success With MTSS* is an exceptional tool for educators beginning their school's multitiered system of supports (MTSS) journey and those who have already come so far and are looking to reflect and reset for success. Educational leaders and teachers will: Embrace the multifaceted approach of MTSS, which includes academic, social-emotional, and behavioral needs Understand and anticipate obstacles to MTSS implementation while also learning how to overcome them Better assess student learning and growth Use a wide variety of tools to customize their MTSS journey Read case studies drawn from the authors' and their colleagues' experiences, as well as from research and literature in the MTSS field Contents: Introduction Chapter 1: What Practices and Elements Make Up Tier 1? Chapter 2: What Practices Make Up Tier 2 and Tier 3? Chapter 3: Where Are We and What Are the Next Steps? Chapter 4: What Is the Implementation Process? Chapter 5: What Does Student Evidence Reveal? Public Policy and Higher Education Nathan J. Daun-Barnett 2024-11-15 *Public Policy and Higher Education*, third edition, provides readers with the tools to examine how policies affect students' access and success in college. Rather than arguing for a single approach, the authors use research-based evidence and consider political and historical values and beliefs to examine how policymakers and higher education administrators can inform and influence change within systems of higher education. Raising new questions and examining recent developments, this fully updated edition is an invaluable resource for graduate students, administrators, policymakers, and researchers who seek to learn more about the crucial contexts underlying policy decisions and college access. This third edition includes updates across the board to reflect current policy contexts. Expanded historical frameworks allow readers to better understand the preparation, access, persistence, and the development of state education systems. New considerations of state and national political ideologies help to inform contemporary contexts. Finally, refreshed cases, including an additional case about Florida and updated cases for California, Minnesota, Indiana, and North Carolina, equip readers with new ways to analyze complex state policies and their impact on higher education. Special Features: Case Studies help readers to build their skills in analyzing how political values, beliefs, and traditions influence policy decisions and adaptations within state systems. Reflective Questions encourage readers to discuss state and campus contexts for policy decisions and to consider the strategies used in a state or institution. Approachable Explanations unpack complex public policies and financial strategies for readers who seek an understanding of public policy in higher education. Research-Based Recommendations explore how policymakers, higher education administrators, and faculty can work together to improve quality, diversity, and financial stewardship.

Creating Curriculum in Early Childhood Julie Bullard 2019-11-25

Creating Curriculum in Early Childhood explores the backward design model of curriculum development, equipping readers with the tools and methods they need to effectively apply backward design in the early childhood classroom. Clear yet comprehensive chapters walk new and veteran educators through an effective method for curriculum design that promotes meeting standards through intentional teaching while engaging children in developmentally appropriate, interest-based education focused on big ideas and conceptual understanding. Featuring desired results, assessment methods, and teaching techniques specific to

birth to age eight, this critical guide also includes practical tips for educators new to the method. Designed to help students and practitioners alike, this powerful textbook combines early childhood philosophy and developmental research with highly practical descriptions, rationales, and examples for developing curricular units using backward design.

Educational Assessment Robert J. Wright 2008 *Educational Tests and Measurements in the Age of Accountability* is a core text for use in a first level graduate course in educational measurement and testing. In addition to covering the topics traditionally found in core textbooks for this course, this text also provides coverage of contemporary topics (including national testing programs, international achievement comparisons, the value added assessment of schools and teachers, and the public policy debate on selective admissions vs. affirmative minority enrollment).
