

Automatic Door Operation Using Plc

AUTOMATIC definition: 1. An automatic machine or device is able to operate independently of human control: 2. An... Learn more. automatic: Acting or operating in a manner essentially independent of external influence or control. Automatic definition: Acting or operating in a manner essentially independent of external influence or control. I can't drive her car because it has a manual transmission instead of an automatic transmission. [=a system that changes gears at different speeds without direct control by the driver] Apr 3, 2026 · Adjective automatic (comparative more automatic, superlative most automatic) (superlative dubious) Capable of operating without external control or intervention. An automatic machine or device is

one that has controls that enable it to perform a task without needing to be constantly operated by a person. Automatic methods and processes involve the use of such ... AUTOMATIC definition: having the capability of starting, operating, moving, etc., independently. See examples of automatic used in a sentence. spontaneous, impulsive, instinctive, automatic, mechanical mean acting or activated without deliberation. spontaneous implies lack of prompting and connotes naturalness. Automatic, involuntary, spontaneous all mean not under the control of the will. That which is automatic, however, is an invariable reaction to a fixed type of stimulus: The patella reflex is automatic. Acting or operating in a manner essentially independent of external influence or control: an automatic light switch; a budget deficit that

triggered automatic spending cuts.
