Teachers' Manual for Modern Life Arithmetics J. G. Fowlkes 1930

Calculus with Applications and Calculus with Applications Brief

Margaret L. Lial 1998

Prealgebra Jamie Blair 2005 Jamie Blair, John Tobey, and Jeff Slater are experienced developmental math authors and "active" classroom teachers. They have carefully crafted their texts to support students in this course by staying with them every step of the way. Blair, Tobey and Slater... "With you every step of the way." This 3rd edition of "Prealgebra" is appropriate for a 1-semester course in Prealgebra and was designed to bridge the gap between arithmetic and algebra topics. Intended for those students who are preparing to take an elementary algebra course and have either not studied algebra or have been previously unsuccessful in arithmetic or algebra. This text integrates algebra rules and concepts with those of arithmetic, spiraling the topics and teaching "why," not memorization. Also teaches students the specific study skills necessary to accommodate their individual learning styles.

Student-friendly math activity books for home study, with little or no parental guidance needed. About the Book Each book in this series helps primary-school students learn and practice basic math skills they'll need in the classroom and on standardized NCLB tests. Printed in 4-color throughout; with numerous special high-interest features. Key Selling Features Attractive 4-color page design creates a student-friendly learning experience. All pages are filled to the brim with activities for maximum educational value. High-interest features and real-world applications enliven the learning experience and hold student interest Week-by-week summer study plans support use as a "summer bridge" learning and reinforcement program. All content aligned to state and national standards Instructional content is scaffolded; students are shown examples, then prompted through the process of solving problems independently. Complete review of Grade 2 math aligned to the new "common core" state standards Week-by-week study plans support use as "summer bridge" program for children entering Grade 2 Drill and practice to reinforce learning Market / Audience The market for these books consists of parents who are anxious because their children have to take NCLB tests or because their children are falling behind in school. Other parents will buy the books simply because their children need or want additional practice to reinforce school-taught skills. Sales for this type of workbook always peak in late spring when parents look for "summer bridge" study aids. A week-by-week summer study plan included in the book supports this use.
