Papers University of Michigan. Department of Physics 1913

Wisconsin's Model Academic Standards for Business Joan W. Loock 2000 This document, which is intended for teachers of high school-level business education courses, contains both the academic standards for business education in Wisconsin secondary schools that were disseminated in 1998 and learning activities to enable students to meet the standards. The activities were developed for students completing grade 12 and were designed in the Wisconsin Instructional Design System format. All activities reflect state-of-the-art technology and concepts and are intended to serve as examples and a catalyst for instruction. Although some activities are specific for courses, others may be integrated into a variety of courses. All standards are cross-referenced to Wisconsin's standards for English language arts, mathematics, and social studies. The document is divided into 11 sections that include the following components: content standards; performance standards; and learning activities. The learning activities include some or all of the following elements: standard addressed; directions for completing the activity; scenarios; scoring standard; rating scale; scoring guide; and directions to the teacher. The section topics are as follows: communications; information systems/technology; financial procedures; economics; entrepreneurship; marketing; international business; principles of management; principles of law; interpersonal and leadership skills; and career development. 3D Printing Real Project for the Automotive

Industry. Reflective Journal Kristal Robles

2017-08-22 Project Report from the year 2016 in the subject Business economics - Business Management, Corporate Governance, grade: 1,0, Munich University of Applied Sciences, language: English, abstract: In this seminar paper I reflect the experiences and feelings I had during this project in the way of a "reflective journal", rather than a "reflective diary".

Unlikely the classical reflective diary definition, which explains a diary as a book in which you write down your personal experiences and thoughts each day, my reflective journal includes an analysis of my personal experiences and thoughts and a recommendation for future learning. For my reflective journal I follow the DIEP strategy, which helps me writing an academic reflection in four steps. The four steps in this approach are to describe an insight, to interpret and evaluate it, and to plan how it might transfer to future practice or learning. The paper is organized as follows. Section 2 contains a brief reflecting diary to D-Describe and I-Interpret what I experienced, discovered, recognized and felt during our project. Section 3 analyzes my reflecting diary according to my E-Evaluation. The fourth section focuses on P-Plan suggestions for improvement.
