Sport, Leisure and Social Justice Jonathan Long 2017-05-08 Social inequalities are often reproduced in sport and leisure contexts. However, sport and leisure can be sites of resistance as well as oppression; they can be repressive or promote positive social change. This challenging and important book brings together contemporary cases examining different dimensions of inequality in sport and leisure, ranging from race and ethnicity to gender, sexual orientation, disability, religion and class. Presenting research-based strategies in support of social justice, this book places the

experiences of disadvantaged communities centre stage. It addresses issues affecting participation, inclusion and engagement in sport, while discussing the challenges faced by specific groups such as Muslim women and LGBT young people. Including original theoretical and methodological insights, it argues that the experiences of these marginalised groups can shed a light on the political struggles taking place over the significance of sport and leisure in society today. Sport, Leisure and Social Justice is fascinating reading for students and academics with an interest in sport and politics, sport and social problems, gender studies, race and ethnicity studies, or the sociology of sport.

This volume combines clarity of expression with careful scholarship and originality, making it especially appealing to students and scholars within a variety of fields, including sport sociology, sport and exercise psychology, sociology of the body, physical education, gender studies, gerontology, and qualitative inquiry. This book was published as a special issue in Qualitative Research in Sport and Exercise.

Sustainable Tourism Dialogues in Africa Judy Kepher Gona 2022-03-21 Focusing on the future of tourism, Sustainable Tourism Dialogues in Africa is inclusive of experienced and emerging researchers, as well as incorporating local stakeholders in the tourism industry: architects, tourism operators, sustainable tourism lobbyists, policy makers, archaeologists, and geographers. The editors are frontline sustainable tourism advocates in Africa, and the book's thematic content is derived from 30 inter-university seminars on sustainable tourism hosted by Sustainable Travel & Tourism Agenda Kenya from 2017 to November 2019. These seminars involved the participation of 17 universities in Kenya, tourism operators, conservationists, developmentalists, investors, policy makers, and students. Every chapter is a voice projecting aspirations for the responsible management of tourism in Africa and promoting the ideals of sustainable tourism that young people in Africa advocate for the industry's future. In so doing, the authors pinpoint the necessary actions for bringing about transformations in sustainable development of tourism. The book thus seeks to encourage debate, while facilitating the development of both theoretical and practical foundations for managing tourism sustainably in Africa.

The Cultural Politics of Lifestyle Sports Belinda Wheaton 2013-07-23 This important new study examines the changing place and meaning of lifestyle sports - parkour, surfing, skateboarding, kite-surfing and others - and asks whether they continue to pose a challenge to the dominant meanings and experience of 'sport' and physical culture. Drawing on a series of in-depth, empirical case-studies, the book offers a re-evaluation of theoretical frameworks with which lifestyle sports have been understood, and focuses on aspects of their cultural politics that have received little attention, particularly the racialization of lifestyle sporting spaces. Centrally, it re-assess the political potential of lifestyle sports,

considering if lifestyle sports cultures present alternative identities and spaces that challenge the dominant ideologies of sport, and the broader politics of identity, in the 21st century. It explores a range of key contemporary themes in lifestyle sport, including: identity and the politics of difference commercialization and globalization sportscapes, media discourse and lived reality risk and responsibility governance and regulation the racialization of lifestyle sports spaces lifestyle sports outside of the Global North the use of lifestyle sport to engage non-privileged youth Casting new light on the significance of sport and sporting subcultures within contemporary society, this book is essential reading for students or researcher working in the sociology of sport, leisure studies or cultural studies.
