Frank Schaffer's Chemistry for Everyday David Thurlo 1999 Students learn about important subjects by relating them to events and things that occur in their everyday lives. A wealth of interesting activities provide a detailed look into each subject. Easy-to-use activities can be completed individually at school or at home, though a few hands-on experiments require group work and data sharing. A great supplement to any existing curriculum Includes topics such as the scientific method applied to chemistry, determining specific gravity, balancing chemical equations, and exploring the periodic table of elements.
