The Broadview Guide to Writing - Sixth Edition Don LePan 2015-06-11 Increasingly, writing handbooks are seen as over-produced and overpriced. One stands out: The Broadview Guide to Writing is published in an elegant but simple format, and sells for roughly half the price of its fancier-looking competitors. For the sixth edition the coverage of MLA, APA, Chicago, and CSE styles of documentation has been substantially expanded as well as updated. Also expanded is coverage of academic argument; of writing and

critical thinking; of writing about literature, of paragraphing; of how to integrate quoted material into one's own work; of balance and parallelism; and of issues of gender, race, religion etc. in writing. The chapter "Seeing and Meaning: Reading (and Writing About) Visual Images" is entirely new. The online materials—including the selection of interactive exercises—have also been revised considerably.
