Reading Literature and Writing Argument

Missy James 2001-08 Based on the premise that literature liberates thinking, and argument disciplines it. This anthology features a critical thinking, analytical approach that readers in turn will apply to their own thought and writing processes. It introduces and explains the tools of argument, and presents reading selections centered on four enduring themes-- Individuality and Community, Nature and Place, Family and Identity, and Power and Responsibility. For those interested in literature, composition, and argumentative writing.

Reversing the Cult of Speed in Higher

Education Jonathan Chambers 2018-10-26 A collection of essays written by arts and humanities scholars across disciplines, this book

argues that higher education has been compromised by its uncritical acceptance of our culture's standards of productivity, busyness, and speed. Inspired by the Slow Movement, contributors explain how and why university culture has come to value productivity over contemplation and rapidity over slowness. Chapter authors argue that the arts and humanities offer a cogent critique of fast culture in higher education, and reframe the discussion of the value of their fields by emphasizing the dialectic between speed and slowness.

reader on both current and timeless controversial issues. It presents everything students need to analyze, research, and write arguments. *Elements of Argument* covers Toulmin, Aristotelian, and Rogerian models of argument and has been thoroughly updated with current selections students will want to read. It helps students compose academic essays by showing how active reading and exploratory writing bring fresh

ideas to light and how informal response is developed into polished, documented prose. Extensively class tested, *Writing in Response* emphasizes the key techniques common to reading, thinking, and writing throughout the humanities and social sciences by teaching students the value of a social, incremental, and recursive writing process. Read the preface. *Competing and Consensual Voices* Patrick J. M. Costello 1995 Examines the theory and practice of argument in primary, secondary and tertiary education. The book's coverage includes: the nature, forms and functions of argument, and its role in teaching; and critical analyses of the practice of argument and suggested ways to develop it in educating contexts.

The Prentice Hall Guide for Student Writers

Stephen Reid 2002 A comprehensive guide to writing designed for introductory composition courses. This all-in-one text offers hallmark coverage of the purposes of writing, focusing on

the importance of a writer's research, critical-reading skills, the ability to organize ideas, and a strategy to assess and develop rhetorical contexts. While the guide emphasizes traditional writing purpose and process, the authors also consider the technological changes that influence and enhance contemporary writing, including expanded coverage of researching, evaluating, and documenting Internet sources. The first Canadian edition not only highlights good writing by Canadians but also provides further insights into Canadian culture and ideas.

Practical Argument Laurie G. Kirsznner 2011-05-16 From the best-selling authors of the most successful reader in America comes *Practical Argument*. No one writes for the introductory composition student like Kirsznner and Mandell, and *Practical Argument* simplifies the study of argument. A straightforward, full-color, accessible introduction to argumentative writing, it employs an exercise-driven, thematically focused, step-by-step approach to get to the heart of what students need to understand argument. In clear, concise, no-

nonsense language, *Practical Argument* focuses on basic principles of classical argument and introduces alternative methods of argumentation. *Practical Argument* forgoes the technical terminology that confuses students and instead explains concepts in understandable, everyday language, illustrating them with examples that are immediately relevant to students' lives.
