Resources in education 1992-07

Animal-Assisted School Counseling Elizabeth Kjellstrand Hartwig 2024-06-19 Animal-Assisted School Counseling (AASC) is a hands-on resource that provides invaluable information for school counselors interested in partnering with a therapy animal on campus to help students meet social and emotional goals. This book presents a wealth of resources for school counselors and school-based mental health practitioners to incorporate animal partners on school campuses with individual students and groups and in classroom and schoolwide settings. Using the American School Counselor Association (ASCA) National Model framework, this book presents AASC interventions that can be implemented as part of the multitiered system of support to address students' mental health needs. The text also meets the important demand for accountability in school counseling by providing resources for assessing the effectiveness of AASC interventions for meeting student and school outcome goals. Addressing such issues as getting school district buy-in, choosing an animal partner, preparing the school for an animal partner, theoretical applications of AASC, and student-affirming AASC services, the book is organized such that each chapter builds upon the next so school counselors understand what steps to take to become an effective AASC team. Ideal for the school counselor, social worker, or psychologist who may not have specific training in AASC, this book will encourage school mental health practitioners to seek out training programs to become an AASC team.

Hatching Tier Two and Three Interventions

in Your Elementary School Counseling

Program Trish Hatch 2019-10-24 Ready your school counseling program for the kids who need it the most! For many students, elementary school is a time of tough transitions. When a student struggles in class, has difficulty making friends, experiences a life-changing event or crisis, or faces other challenges, your support is essential. Finding the right intervention for each identified student can be the key to that child's future success. In this companion book to *The Use of Data in School Counseling and Hatching Results for Elementary School Counseling*, Trish Hatch, Ashley Kruger, Nicole Pablo and Whitney Triplett offer a systematic, evidence-based approach to creating and implementing high-quality interventions within a Multi-Tiered System of Support (MTSS). This hands-on guide features:

- Thorough exploration and explanation of Tier 2 and Tier 3 activities
- Guidelines for progress monitoring and collaboration with teachers and family
- Templates for developing lesson plans and action plans
- Web-based resources, including downloadable templates and a discussion guide
- Personal stories and vignettes from practicing school counselors and teachers of the year

Every student deserves a quality education in a positive, healthy, safe environment. When you provide targeted, data-driven interventions for students in need, you make that possible for them—and improve school life for their classmates and teachers as well.

Problem Solving Mary S. Charuhas 1995
School Counseling for the Twenty-first Century Stanley B. Baker 2000

Designed as a core text for courses in school counseling. Using a developmental framework and a balanced approach, the text reviews the role of today's school counselor in preparing students to function in a high-tech global society and to be well-adjusted to cope with its changes and challenges. The text offers guidance in defining and in enunciating the school counselor's roles and functions more clearly as social changes and socioeconomic pressures influence the directions of school programs. This text prepares the next

generation of school counselors to be significant contributors to upcoming demands from their schools.

Designing and Leading Comprehensive School Counseling Programs Duane Brown 2005 Learn to effectively organize and evaluate school counseling programs with DESIGNING AND LEADING COMPREHENSIVE SCHOOL COUNSELING PROGRAMS! Based on the guidelines from the American School Counselor Association (ASCA), National Consortium of State Guidance Leadership, and other highly recognized organizations, this counseling text focuses needed attention on the school counselors' role in leadership and advocacy. Each chapter ends with reviews, questions, assignments, and cases that reinforce the concepts presented in the text.

Groups in Schools Anne M. Geroski 2010 Finally, a textbook that teaches students how to effectively lead counseling and classroom groups in schools! This practical, user-friendly book contains the most relevant information critical to working with students in both classroom psychoeducational and counseling group work in schools. Building upon students' and practitioners' generalist preparation to lead groups, *Group Work in Schools: Preparing, Leading, Responding* offers readers practical direction in planning and facilitating groups in the school setting. The ideas presented in the book are applicable to a variety of group venues and adaptable to multiple age levels. The 'nuts and bolts' approach in this book is complemented by a focus on how school counselors can use group work to address complex and nuanced issues (particularly those social issues frequently referred to as "diversity issues") in their school communities. In short, this book teaches school counselors to be intentional in their group work practice in schools.
