Chen 2017-05-03 This volume contains 73 papers, presenting

the state of the art in computer-aided design in

control systems (CADCS). The latest information and

exchange of ideas presented at the Symposium illustrates the

development of computer-aided design science and technology

within control systems. The

Proceedings contain six

plenary papers and six special invited papers, and the

remainder are divided into five themes: CADCS packages;

CADCS software and

hardware; systems design

methods; CADCS expert

systems; CADCS applications,

with finally a discussion on

CADCS in education and

research.
