The problem is that there is an overabundance of information available today and only a small percentage of people ever really learn anything. Most of them quit because they get overloaded with all the lessons, tips, tricks, advice... They don't know where to begin and what to work on in order to get the exact skills needed to play something that interests them, and then quickly burn out. When new guitar players don't get the wanted results they start thinking it's because of their lack of talent, and they start losing inspiration. All that leads to having more and more excuses to not practice, eventually losing interest and quitting. While having the correct mindset when learning any new skill is very important, the biggest issue is usually in the lack of a proper structure, a step by step information - which is exactly what this book gives you. It takes you step-by-step in detail from the beginning to mastering the basics on guitar. Mastering guitar basics can be divided into four stages 1.
