Kannan 2006-05-06 Biotechnology is expected to play a key role in the developmental process and economic growth of not only India but the rest of the developing world. Society can no longer pretend that it operates within a limitless ecosystem. Developing an economy that can be sustained within the finite biosphere requires new ways of thinking. The biggest challenge for a biotechnologist is to achieve a dynamic equilibrium where the development has to be sustainable. The aim of this textbook is to give a comprehensive and a basic understanding of various aspects and tool of biotechnology.
