**Springhouse Certification Review** 1996 Every question incorporates a step of the nursing process and a cognitive level from Bloom's Taxonomy. The text is divided into a two-column format -- questions on the left, answers on the right. A card is included so students can cover answers as they study. And the sample test section covers every body system tested on the actual exam; test questions reflect the weighting used in the CCRN blueprint. Contents include reviews of the cardiovascular, respiratory, neurologic, renal, gastrointestinal, endocrine, hematologic, and immunologic systems; multisystem review; sample test with questions, answer sheet, answers, and rationales; appendices; selected references; and index.
