What Choice Do I Have? Terry

Patrick Bigelow 2005 In this book you'll discover how giving students a voice in how they learn and what they learn from opens up your classroom to inquiry and engagement while offering authentic teachable moments.

Language Arts and Literacy in the Middle Grades Margaret J. Finders 2007 From two prominent scholars in the field of literacy comes a middle school teacher preparation text that offers important innovations not usually found in traditional secondary methods texts. The book is rife with concrete examples of teaching literacy and language arts in middle school contexts, but is relevant to preservice and practicing teachers at middle and high school levels. This edition includes a stronger focus on culturally relevant pedagogy and the needs of English Language Learners as well as a Standards in Practice

Create A Board Game Assignment Rubric

feature, which helps teachers incorporate state and national standards in teaching and planning. The book is based on a teacher-as-inquirer model. A fieldwork component provides tools for classroom inquiry and reflection in each chapter. The book is timely and relevant, with classroom cases written by experienced and new middle school language arts teachers.

Choreographing Creativity

Jennifer Lynne Bird 2009-12-03

Choreographing Creativity: Teaching as Artistic and Technical within the Curriculum of Composition views teaching as a combination of artistic and technical elements, similar to a figure skating or dance routine. Dr. Jennifer Bird presents a fictional story founded in factual teaching methods to illustrate this concept. The fifteen teachers in "Cohort for Change" join her on this journey to share snapshots of their classroom experiences and advice for educators who wish to reclaim classroom creativity in the current "teach to the test" culture of

education.

Maturing Leadership

Jonathan Reams 2020-04-03

We've known for years now that demands on leaders are only increasing. Yet we have lacked rigorous ways to support development for leaders to meet these demands.

In **Maturing Leadership**, Jonathan Reams brings together a cast of expert contributors to explore the value of a developmental approach to these issues.

Educational Psychology

Jeanne Ellis Ormrod 2006

Educational Psychology: Developing Learners is known for its exceptionally clear and engaging writing, its in-depth focus on learning, and its extensive concrete applications. Its unique approach helps teachers understand concepts by encouraging them to examine

Create A Board Game Assignment Rubric

their own learning and then showing them how to apply these concepts. The book gives an in-depth understanding of the central ideas of educational psychology, and moves seamlessly between theory and applications, including innumerable concrete examples-video cases, written cases, artifacts, and more-to help the reader connect educational psychology to children and classrooms.

Evaluating Students Alex Shirran 2006 "Marks and letter grades are not simply assigned. In our high-stakes testing era, teachers need to be well-versed in the theory, practice, and politics of marking, and be able to justify and defend their evaluation and teaching practices. Based on years of classroom experience, this timely book uses compelling case studies and suggests specific strategies for clarifying classroom assessment and advancing the teacher's relationship with students, parents, and administrators. [This book] presents an overview of the basic

conditions and criteria of marking. It includes details on calculating grades that range from weighting course marks and determining report card marks to reflecting the role of effort in assigning grades. This teacher-friendly book also explores the many issues around the role of standardized tests. This remarkable handbook will show new and experienced teachers that a marking process that is research-driven, transparent, and universally applied is the best way to defend their decisions."--Publisher's description, from p. [4] of cover.

Becoming a Middle Level

Teacher Cathy Vatterott 2007
Becoming A Middle Level Teacher outlines an approach to student focused instruction that can provide greater academic success for the most students, and at the same time, assist early adolescents in navigating the difficult transition of puberty. With over 50 learning activities in language arts, social studies, science, math, art, music, and

physical education from 20 practicing middle school teachers, the text is full of examples of actual programs and practices from several outstanding middle schools. **What Works in Teaching and Learning** 2005
