Beating the CSET! Chris Nicholas Boosalis 2005-06 "Beating the CSET!" will help both pre-service and practicing teachers in California pass the CSET Multiple Subjects

Subtests I - III. Because passing the CSET Multiple Subjects test is now required for an elementary credential in California, this new text has been designed to address the essential time-management methods, essay and multiple-choice strategies, and content that test takers must master in order to pass Subtests One through Three of the exam. Unlike other preparation books, this text does not simply offer a copy of MSAT materials. Instead, the content, constructed-response and multiple-choice strategies, and special time-management models for the tests are all research based and tailored to CSET Multiple Subject content in great detail. People who used "Beating the CSET!" report: "I took all three sections of the CSET and passed- the first time! The invaluable time-management, scoring, essay and multiple-choice approaches all worked for each of the subtests, and the content is in abundance. I know for a fact that "Beating the CSET!" is the reason that I

passed. Based on my success, I strongly recommend this book to everyone." "Sarah S., elementary teacher, McSwain Elementary School District" ""Beating the CSET!" helped me to manage my time during the test and provided guidelines and strategies that were helpful in making sure that I achieved a passing score. It also provided additional information as well as other resources to aide in my preparation. I highly recommend this text to anyone who wants to be prepared to pass this test the first time." "Lisa N., Teaching Specialist, Merced, California"

Constructed Responses for Learning Warren Combs
2016-02-05 Teaching students to write constructed responses does not have to become a test-prep chore. An intentional

routine of constructed responses provides powerful opportunities to teach strategic thinking through writing that also deepens students' knowledge about core subjects. In this clear guide from education consultant Warren Combs, you'll learn how and why to teach students to write these short essays, no matter what subject or grade level you teach. Special features: Writing prompts that are based on Webb's Depth of Knowledge (DOK) and provide practice for students at all skill levels Practical strategies to build critical thinking and improve students' writing, including sentence stems, acrostics, framed stories, analogies, and quad clusters Student self-assessment guidelines and rigorous peer-response strategies An interactive log to help you manage best practices and keep students engaged Reading-Writing Modules to help you review and implement the instructional practices and strategies Sample student work, at different levels, with analysis Throughout the book,
