*How to Read Literature Like a Professor Revised* Thomas C. Foster 2014-02-25 Thoroughly revised and expanded for a new generation of readers, this classic guide to enjoying literature to its fullest—a lively, enlightening, and entertaining introduction to a diverse range of writing and literary devices that enrich these works, including symbols, themes, and contexts—teaches you how to make your everyday reading experience richer and more rewarding. While books can be enjoyed for their basic stories, there are often deeper literary meanings beneath the surface. *How to Read Literature Like a Professor* helps us to discover those hidden truths by looking at literature with the practiced analytical eye—and the literary codes—of a college professor. What does it mean when a protagonist is traveling along a dusty road? When he hands a drink to his companion? When he's drenched in a sudden rain shower? Thomas C. Foster provides answers to these questions as he explores every aspect of fiction, from major themes to literary models, narrative devices, and form. Offering a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—he shows us how to make our reading experience more intellectually satisfying and fun. The world, and curricula, have changed. This third edition has been thoroughly revised to reflect those changes, and features new chapters, a new preface and epilogue, as well as fresh teaching points Foster has developed over the past decade. Foster updates the books he discusses to include more diverse, inclusive, and modern works, such as Angie Thomas's *The Hate U Give*; Emily St. John Mandel's *Station Eleven*; Neil Gaiman's *Neverwhere*; Elizabeth Acevedo's *The Poet X*; Helen Oyeyemi's *Mr. Fox and Boy*, *Snow, Bird*; Sandra Cisneros's *The House on Mango Street*; Zora Neale Hurston's *Their Eyes Were Watching God*; Maggie O'Farrell's *Hamnet*; Madeline Miller's *Circe*; Pat Barker's *The Silence of the Girls*; and Tahereh Mafi's *A Very Large Expanse of Sea*.

[Holocaust Archaeologies](#) Caroline Sturdy Colls 2015-02-28 *Holocaust Archaeologies: Approaches and Future Directions* aims to move archaeological research concerning the Holocaust forward through a discussion of the variety of the political, social, ethical and religious issues that surround investigations of this period and by considering how to address them. It considers the various reasons why archaeological investigations may take place and what issues will be brought to bear when fieldwork is suggested. It presents an interdisciplinary methodology in order to demonstrate how archaeology can (uniquely) contribute to the history of this period. Case examples are used throughout the book in order to contextualise prevalent themes and a variety of geographically and typologically diverse sites throughout Europe are discussed. This book challenges many of the widely held perceptions concerning the Holocaust, including the idea that it was solely an Eastern European phenomena centred on Auschwitz and the belief that other sites connected to it were largely destroyed or are well-known. The typologically , temporally and spatial diverse body of physical evidence pertaining to this period is presented and future possibilities for investigation of it are discussed. Finally, the volume concludes by discussing issues relating to the “re-presentation” of the Holocaust and the impact of this on commemoration, heritage management and education. This discussion is a timely one as we enter an age without survivors and questions are raised about how to educate future generations about these events in their absence.

**Kincraft** Todne Thomas 2021-02-22 In *Kincraft* Todne Thomas explores the internal dynamics of community life among black evangelicals, who are often overshadowed by white evangelicals and the common equation of the “Black Church” with an Afro-Protestant mainline. Drawing on fieldwork in an Afro-Caribbean and African American church association in Atlanta, Thomas locates black evangelicals at the center of their own religious story, presenting their determined spiritual relatedness as a form of insurgency. She outlines how church members cocreate themselves as spiritual kin through what she calls kincraft—the construction of one another as brothers and sisters in Christ. Kincraft, which Thomas traces back to the diasporic histories and migration experiences of church members, reflects black evangelicals' understanding of Christian familial connection as transcending racial, ethnic, and denominational boundaries in ways that go beyond the patriarchal nuclear family. Church members also use their spiritual relationships to navigate racial and ethnic discrimination within the majority-white evangelical movement. By charting kincraft's functions and significance, Thomas demonstrates the ways in which black evangelical social life is more varied and multidimensional than standard narratives of evangelicalism would otherwise suggest.

*The Opportunity to Live Well* Paul James 2017-05-11 What is the greatest, most precious, opportunity that life provides? It is not winning millions in a lottery. Money, fame, intelligence, beauty, a prestigious career, or mere existence will not simply provide us with a good life. We all have the potential to live well, to have a good life, but how can we do so? We can master complex subjects, attain advanced qualifications and demonstrate sound skills; we can become wealthy, and still make a mess of our lives. People can meet the accepted measures of success, yet still not live well. Gough Whitlam, Nelson Mandela, Pete Seeger, Luke Kelly and Ben of Kombi Life are used here to demonstrate the challenges and joyous rewards of living well. They inform, and teach us, that we can also live well when we cultivate awareness; altruism; wholeness of

body, mind and spirit; resilience and persistence; passion; empathy; a sense of belonging; personal character; self-knowledge; and life-enhancing habits.

*Centennials* Professor Alex Hill 2023-06-15 Start-ups rarely survive their second birthday. Even established firms in the UK and the US average a life of only fifteen years. So how can your company build and sustain success for decades to come? Professor Alex Hill has conducted thirteen years of groundbreaking research into a clutch of organisations that have outperformed their peers for over 100 years - from NASA to the New Zealand All Blacks, from Eton College and the Royal College of Art to the Royal Marines and the Royal Shakespeare Company. And what he has found is that these very different organisations all share remarkably similar strategies when it comes to building and maintaining excellence and success - strategies that frequently fly in the face of conventional business wisdom. Here Professor Hill shares the twelve traits that have set these organisations apart for over a century, from the way they analyse success and failure to their approach to finding the best people and the brightest new ideas. In so doing, he identifies the strategies and habits that you can employ in your company to create a strong and stable core and to ensure the same long-term prosperity. In short, he shows you how to build a promising enterprise into an enduring, great organisation.

*Prison Food in America* Erika Camplin 2016-12-08 America seems presently fascinated by prison culture and the inner workings of what happens behind clinked doors. With TV shows creating binge-watchers of us all, and celebrities piquing public interest as they end up behind bars, Americans seem to enjoy a good gawk at prison life. Each year, more than 1.3 million visitors still trek out to Alcatraz Island, one of the most famous prisons in the world. And why shouldn't they be curious about prison? We as a nation currently incarcerate more people per capita than any other country, and our prisons are notoriously rough, violent, and overcrowded. At the same time, we love our food, take pictures of it, post it socially, and discuss our foodie favorites. Rarely do we consider the food experiences of those for whom sustenance is more difficult to obtain, particularly those incarcerated, where choice and access is severely limited. Prison food is often everything to prisoners. It is the only marker of time throughout the day. Food becomes commerce in the microeconomies behind prison walls. It is often the only source of pleasure in a monotonous routine. It creates sites of community when prisoners ban together to create recipes, but also becomes a site of discord when issues surrounding fairness and equity arise in the chow hall. Prison Food in America offers a high-level snapshot of the fare offered behind bars, its general guidelines and regulations, fascinating stories about prisoners and food, and the remarkable and varied ways food plays a role in the fabric of prison culture.

**Food Cults** Kima Cargill 2016-12-01 What do we mean when we call any group a cult? Defining that term is a slippery proposition - the word cult is provocative and arguably pejorative. Does it necessarily refer to a religious group? A group with a charismatic leader? Or something darker and more sinister? Because beliefs and practices surrounding food often inspire religious and political fervor, as well as function to unite people into insular groups, it is inevitable that "food cults" would emerge. Studying the extreme beliefs and practices of such food cults allows us to see the ways in which food serves as a nexus for religious beliefs, sexuality, death anxiety, preoccupation with the body, asceticism, and hedonism, to name a few. In contrast to religious and political cults, food cults have the added dimension of mediating cultural trends in nutrition and diet through their membership. Should we then consider raw foodists, many of whom believe that cooked food is poison, a type of food cult? What about paleo diet adherents or those who follow a restricted calorie diet for longevity? Food Cults explores these questions by looking at domestic and international, contemporary and historic food communities characterized by extreme nutritional beliefs or viewed as "fringe" movements by mainstream culture. While there are a variety of accounts of such food communities across disciplines, this collection pulls together these works and explains why we gravitate toward such groups and the social and psychological functions they serve. This volume describes how

contemporary and historic food communities come together and foment fanaticism, judgment, charisma, dogma, passion, longevity, condemnation and exaltation.
