**Trafficking in Persons Report 2017** Office of the Undersecretary for Civilian Security, Democracy, and Human Rights 2017-08-18 The 2017 Trafficking in Persons Report highlights the successes achieved and the remaining challenges before us on this important issue. The primary focus is to showcase the responsibility of governments to criminalize human trafficking and hold offenders accountable. This year's report

theme is increasing criminal accountability of human traffickers and addressing challenges in prosecution - an essential component of 3P-paradigm of prosecution, protection, and prevention. It provides an overview of the type of human trafficking offenses that are taking place around the world in violation of human rights. The text includes side bars of situational human trafficking experiences to allow the reader to understand the different types that occur throughout the world. High school students and above may find this report helpful for research and writing essays about human rights and law enforcement of human trafficking. American citizens, policy analysts and decision-makers, law enforcement personnel, and human rights policy activists and advocates and world leaders may refer to this report as a reference on these crimes. **The Small-Scale Fisheries Guidelines** Svein Jentoft 2017-06-10 In June 2014, FAO member-states endorsed the Voluntary Guidelines for Securing Sustainable Small-Scale Fisheries (SSF Guidelines). These Guidelines are one of the most significant landmarks for small-scale fisheries around the world. They are comprehensive in terms of topics covered, and progressive, with their foundations based on human rights and other key principles. It can be anticipated that implementing the SSF

Guidelines, whether at local, national, or regional levels, will be challenging. This book contains in-depth case studies where authors discuss the extent to which the Guidelines can help improve the realities of small-scale fishing men and women globally and make their livelihoods and communities more secure. This will require policy intervention and innovation, along with contributions of civil society organizations and academia. However, most of all it will necessitate the empowerment of fishing people so that they can become active participants in decision making on matters where their well-being and human rights are at stake. By endorsing the SSF Guidelines, states have committed themselves to support and facilitate this development. This book asks whether states can successfully “walk the talk,” and provides advice as to how they can do so. The collection of case studies sets the platform for an interactive dialogue space for researchers, policy makers, civil society and small-scale fishing communities to start the conversation about the monitoring and evaluation of the implementation of the SSF Guidelines at local, national, regional and global levels. An added value is that it helps add focus to our work as civil society activists involved in ensuring the application of the SSF Guidelines. Naseegh Jaffer - General Secretary, World Forum of Fisher People (WFFP) This collection offers many ways in which institutions enabling small-scale fisheries can protect and promote sustainability, food security, customary tenure, self-management, and market access, while fostering such benefits as ecosystem-based management, protected areas, incorporation of local knowledge, and poverty alleviation. You will want to put this book in the hands of policy-makers and practitioners immediately -- and for years to come. Evelyn Pinkerton - Professor, Simon Fraser University, Canada
