Popular Series Fiction for K-6 Readers Rebecca L. Thomas 2004 Because of their popularity, books in series are great vehicles for fostering literacy among all types of readers, who are almost always adamant about reading every title in the series, in series order. Yet traditional information sources on children's and YA literature include very little about series fiction, so librarians often have difficulty managing this literature. This guide will be a rich resource and time-saver for librarians who work with children. It introduces users to the best and most popular fiction series of today, covering more than 1,000 series with over 10,000 titles, appropriate for elementary readers. Annotations also indicate series and titles accepted by some of the popular electronic reading programs (e.g., Accelerated Reading, Reading First). A numbered list of titles in the series follows.

I Was a Third Grade Science Project Mary Jane Auch 1999-10-12 It sure is handy having Brian the Brain for a best friend—how else would Josh have a shot at first prize in the science fair and winning tickets to Wonderland Lake? But when Brian plans to hypnotize his dog, Arfie, into thinking he's a cat, Josh knows he can say goodbye to Wonderland Lake—this scheme will never work. The next thing he knows, Josh is climbing trees and craving raw fish sandwiches. What's going on? Will the real science project please meow?

On the Art of the Craft Girls Write Now 2024-04-23 A writing companion, inspirational guide to the craft, and anthology featuring interactive multi-genre work from the acclaimed organization on its twenty-fifth anniversary. We all have stories to tell, but not everyone gets the mentoring and training or encouragement to become a great storyteller. Founded a quarter century ago, Girls Write Now has empowered young women and gender-expansive youth to harness their creative talents, gaining confidence, skills, and a community supporting them in sharing stories the world needs to hear. This hands-on guide—conceived of and written and edited by the young people of Girls Write Now—draws from the organization's dynamic curriculum and the writers' own personal experiences spanning decades. It offers aspiring writers the tools they need to develop their craft—including tips, insight, and advice on the writing and publishing process as well as critical thinking about the future of storytelling. With this handbook, readers everywhere can equip themselves to shape their life stories, and become the writers and leaders they dream of being.

Fun & Easy Science Projects: Grade 3 Experiland 2010-09-23 Science certainly does not need to be complicated formulas, heavy text books and geeky guys in white lab coats with thick glasses. Science can be really simple and is actually only about understanding the world you live in! Science experiments are an

awesome part of science that allows you to engage in cool and exciting hands on learning experiences that you are sure to enjoy and remember! By working through the science projects in this book, you will learn about science in the best possible way - getting your hands dirty & doing things yourself! Specially chosen to appeal to kids in grade 3, each experiment answers a particular question about a specific category of science and includes an introduction, list of the materials you need, easy-to-follow steps, an explanation of what the experiment demonstrates as well as a learn more and science glossary section! Each of these easy-to-understand sections helps explain the underlying scientific concepts to kids and will inspire them to create their own related experiments and aid in developing an inquisitive mind. Amongst many others, you will send secret messages to your friends with your own invisible ink to understand how chemical reactions work, construct a rocket to see how objects fly, make a self-filling water bowl for pets using air pressure, and make a light bulb shine using a lemon as a battery to learn about electric current! Other fun experiments include growing your own crystals along a piece of string, making an electrical doorbell for your room, telling the time with your own water clock, cutting through ice with a string, making a spool 'walk' with the energy stored in an elastic band and many, many more! The 40 projects contained in this science experiment e-book cover a wide range of scientific topics; from Chemistry and Electricity to Life Sciences and Physics... there are even experiments on earth science, astronomy and geology all designed for young students in grade 3! With this book, you are sure to find a project that interests you. When you are interested in a certain science topic, you will have more fun, and learn more, too! Designed with safety in mind, most of the items you will need for the experiments, such as jars, aluminium foil, scissors and sticky tape, you can find around your home. Others, such as magnets, lenses or a compass, you will be able to buy quite cheaply at a hobby shop or hardware store.

Pathways to Independence Jo Worthy 2001-04-20 This comprehensive text presents a core of research-based approaches to engaging, effective literacy instruction in the middle grades. Methods and materials are described to foster reading skills, content mastery, and writing in different formats and for different purposes. The authors emphasize the need to tailor instruction to the needs, strengths, skill levels, and interests of diverse students. They offer recommendations for reading lists that incorporate critically acclaimed fiction and nonfiction, popular series books, and other student-friendly materials. Special features include case studies, examples of teaching and assessment activities, and commentary from middle-school teachers and students. Appendices contain reproducible forms and lists of recommended reading materials and resources.
