The Bush Betrayal James Bovard 2015-03-24 His hard-hitting critiques of Democratic and Republican administrations in The Wall Street Journal, the New York Times, Newsweek, and other national publications have made him a "bipartisan scourge." Now, James Bovard launches a blistering attack on the Bush administration that will add new fuel to the fires of Bush opponents while giving presidential supporters much to think about. In a series of cogently argued allegations, Bovard shows how the campaign promises of 2000 have betrayed not only the electorate, but the Constitution itself: from the erosion of civil liberties, massive debt, and the arrogance of federal agencies, to economic policies that favor the wealthy, and the deceptive maneuvers that led to war in Iraq and the alienation of former allies. For every American, The Bush Betrayal

will be required reading in this election year.
