Brilliant Ideas for Using ICT in the Inclusive Classroom Sally McKeown 2019-02-13 Runner up in Teach Secondary's Technology and Innovation Awards 2014 sponsored by Lego, Brilliant Ideas for using ICT in the Inclusive Classroom provides lots of simple practical ideas showing teachers and support staff how they can use ICT to boost the achievement of all pupils. How can you use ICT to boost the achievement of all your pupils? This practical teachers' guide will help you to unlock the enormous potential of new technology in order to enhance pupils' learning, particularly for young people with additional needs. Written by two of the UK's leading technology experts, this invaluable and newly updated resource will enable you to use ICT effectively to make lessons more accessible, motivating and fun. With fifty illustrated case studies and twenty starter activities, this practical resource will help you to introduce new technology into the inclusive classroom. It has been specifically designed to help develop your pupils' key skills, such as problem solving, developing concepts and communicating to different audiences. In each activity, the authors show why and how a particular resource was used and show how similar techniques can be implemented to open up the curriculum to your learners. The authors include timely and realistic advice on how to use a range of technologies from the cheap and cheerful - and even free - to more sophisticated and specialist packages. Find out about: Apps Blogging Digital animation Podcasting Digital storytelling Wikis Geocaching Coding Games and gaming Sat nav Art packages Twitter Whether you're already techno-savvy or looking to get started with ICT, this book is full of brilliant ideas on how to engage learners of all abilities using technology. If you're looking for inspiration on how to integrate creative uses of ICT with the curriculum, this book will prove invaluable.

Integrating Technology in Literacy Instruction Jodi Pilgrim 2025-03-21 In the second edition, this text has been updated to address changing literacies surrounding students and the continued importance of effective communication using technology tools in K-12 classrooms. Technology has the power and potential to transform teaching and learning in classrooms and to promote active learning, interaction, and engagement through readily available tools and applications. While both technologies and research in literacy education rapidly evolve, this book presents lasting frameworks for teachers to effectively evaluate and implement digital tools to enhance classroom literacies and learning. Through the lens of Universal

Design for Learning (UDL), this text equips educators to develop inclusive learning environments that support the needs and desires of all literacy learners through the integration of technology and literacy instruction. This text presents a range of current models and frameworks, including SAMR, RAT, PICRAT, T3, TPACK, TIPC, and EMSCI. The new edition of this book has been updated to include: Alignment with ISTE standards in each chapter Updates from the 2024 UDL Guidelines 3.0 Updates from the most recent 2024 National Educational Technology Plan Updated technology applications, including AI and its impact Tools for teaching through remote and distance learning Each chapter includes prompts for reflection and discussion to encourage readers to consider ways literacy and technology can enable teachers to become agents of change. This book will be especially beneficial for pre-service undergraduate and graduate teacher candidates, as well as ISTE certified educators and those seeking certification.

TPACK: Breakthroughs in Research and Practice Management Association, Information Resources 2019-02-01 Educational technologies are becoming commonplace entities in classrooms as they provide more options and support for teachers and students. However, many teachers are finding these technologies difficult to use due to a lack of training and instruction on how to effectively apply them to the classroom. TPACK: Breakthroughs in Research and Practice is an authoritative reference source for the latest research on the integration of technological knowledge, pedagogical knowledge, and content knowledge in the contexts of K-12 education. Highlighting a range of pertinent topics such as pedagogical strategies, blended learning, and technology integration, this publication is an ideal resource for educators, instructional designers, administrators, academicians, and teacher education programs seeking current findings on the implementation of technology in instructional design.
