**Prioritization, Delegation, and Assignment**

Linda A. LaCharity 2013-12-02 The only NCLEX review book on the market with a focus on prioritization, delegation, and patient assignment — just like the current NCLEX Examination itself! Using a unique simple-to-complex approach, *Prioritization, Delegation, and Assignment: Practice Exercises for the NCLEX® Examination, 3rd Edition* establishes your foundational knowledge in management of care, then provides exercises of increasing difficulty to help you build confidence in your prioritization, delegation, and patient assignment skills. ". . . certainly a great resource for use in any healthcare setting." Reviewed by Anne Duell on behalf of *Nursing Times*, September 2015 UNIQUE! Emphasis on the NCLEX Examination's management-of-care focus addresses the heavy emphasis on prioritization, delegation, and patient assignment in the current NCLEX Examination (17-23% of the 2013 NCLEX-RN Exam). UNIQUE! Three-part organization establishes foundational knowledge and then provides exercises of increasing difficulty to help you build confidence in your prioritization, delegation, and patient assignment skills. Answer key at the back of the book offers a detailed rationale and an indication of the focus of the question to encourage formative assessment. Introduction chapter by delegation expert Ruth Hansten provides guidelines for prioritization, delegation, and patient assignment decisions as well as a concise, practical foundation on which Parts 2 and 3 build. Part 2: *Prioritization, Delegation, and Assignment in Common Health Scenarios* give you practice in applying the principles from Part 1 with straightforward NCLEX-style multiple-choice, multiple-select, ordering, and

short-answer questions to help you develop and build confidence in prioritization, delegation, and patient assignment skills while working within the confines of relatively simple health scenarios. Part 3: *Prioritization, Delegation, and Assignment in Complex Health Scenarios* utilizes unfolding cases that build on the skills learned in Part 2 to equip you to make sound decisions in realistic, complex health scenarios involving complicated health problems and/or challenging patient assignment decisions and help you learn to "think like nurses" by developing what Benner (2010) calls "clinical imagination." NEW! Fully interactive question functionality features optional online answer submission with automated scoring. NEW! The all-important QSEN initiative is addressed by: Introducing the QSEN initiative and QSEN competencies in Part I Including a new chapter focused primarily on safety and other "nursing fundamentals" issues Identifying corresponding QSEN competencies and Concepts for each question in the Answer Key in the Evolve Instructor Resources NEW! Faculty-only Unfolding Cases and Suggested Uses resource on Evolve facilitate classroom discussion, development of clinical reasoning skills, and learner evaluation, as well as tips for teaching with the book throughout the nursing curriculum. NEW! Safety and Infection Control chapter features an increased number of questions specific to the QSEN safety competency. NEW! Separate Diabetes Mellitus and Other Endocrine Problems chapters give greater emphasis to diabetes as requested in feedback on the previous edition. NEW! Pediatric Problems and Psychiatric-Mental Health Problems chapters expand on content formerly integrated into body systems chapters to provide you with a more thorough understanding of these key clinical areas. NEW! NCLEX chart-format questions include six patient "charts" in Case Study 6 (Home Health) to reflect the NCLEX Exam's chart-format questions. NEW! Design and navigation enhancements include page cross-references at the bottom of each page, quick-reference tabs on the answer key, and a new two-color design.

NEW! Additional questions address the newborn, immunization, catheter-related infection, and ventilator-related infection.

*Curriculum-based Assessment* Carroll J. Jones 2008 Although curriculum-based assessment (CBA) has been on the horizon for a number of years, there has been a need for a practical, classroom-based approach for its implementation. This second edition is a major revision and update that offers practical and specific methods for developing and using CBAs in an educational setting. It gives educators a highly specific, step-by-step approach to building CBAs in the area of reading word recognition, reading comprehension, content reading, mathematics, and written expression. Each chapter offers detailed, easy-to-read, and easy-to-follow instructions for the assessment construction process. To further clarify the process, extensive examples are given in table format. A unique feature of the text is the manner in which the author illustrates the principles of CBA by providing a case study on one student which is referred to in each chapter. Its formative assessment approach gives the teacher additional, detailed information about students' OCO performance, which, in turn, should guide the type of instruction designed and implemented, ultimately leading to higher

performance on summative outcome measures. Additionally, detailed information is provided on subject area CBA construction, the creation and implementation of a district-wide CBA system for response-to-intervention, and how to use IDEA'S response-to-intervention in student evaluation." *School Document* 1916
