community care initiatives have affected speech and language therapy services and an analysis of service audit are all included. As well as giving a description of speech and language therapy intervention with the elderly who have psychiatric disorders, the book also highlights the issues and challenges facing clinicians who work within the reformed health service. It should be of considerable interest to speech and language therapists, other health care professionals and students who work with older mentally ill people. Purchasers and managers who are commissioning and providing services for the older population with psychiatric disorders should also find the book useful.
