Hollywood or History? An Inquiry-Based Strategy for Using Film to Teach United States History Scott L. Roberts 2018-07-30 This book offers practical, classroom-ready lesson ideas for teaching social studies through Hollywood films. It aims to bridge theory and practice, fostering critical thinking and civic mindedness. Aligned with the C3 framework, it provides tools for K-12 teachers to enhance historical inquiry using historically themed movies.

Teaching Critically about Lewis and Clark Alison Schmitke 2020

"The Lewis and Clark Corps of Discovery is often presented as an exciting adventure story of discovery, friendship, patriotism. However, when viewed through a non-colonial lens, this same period in U.S. History can be understood quite differently. In BEYOND ADVENTURE, the authors provide a conceptual framework, ready-to-use lesson plans, and teaching resources to address oversimplified versions of the Lewis and Clark expedition"--

Effective Teaching Methods Gary D. Borich 2004 For graduate and undergraduate courses in general K-12 methods. The new edition of this popular text clearly achieves its stated goal: to prepare prospective teachers to meet the challenges of today's changing classrooms by providing effective, practical, research-based practices in an accessible, conversational style. Material is based on a quarter-century of actual, in-classroom research that makes it possible to replace anecdotal suggestions for good teaching with solidly research-grounded strategies empirically related to positive outcomes. The author shows future teachers not only "what" to do to meet today's teaching challenges, but "how" to do it, through the experiences of real teachers in real classrooms.
