Transplanting the Great Society Kristin L. Ahlberg 2008 "Kristin Ahlberg traces the transformation of Public Law 480 from a means of liquidating domestic surplus into a vital component of U.S. foreign policy. She focuses on how Lyndon Johnson sought to re-create his Great Society reforms on a global scale by exporting programs designed to improve the lives of world citizens through combating food shortages - and how he also wielded Food for Peace as a diplomatic tool to gain support for U.S. policies and to reward or punish allies for their behavior." "Ahlberg draws on recently declassified sources to show how the Johnson administration used Food for Peace to win diplomatic support for American policy in Vietnam, prevent nuclear proliferation on the Indian subcontinent, and uphold Israeli security." "Transplanting the Great Society is an insightful study that shows the successes and limitations of using food aid as a diplomatic tool during the middle period of the Cold War. It paints a broader picture of Johnson's foreign policies, opening a new window on both his administration and postwar diplomatic history."--BOOK JACKET.

**We Are Worth Fighting For** Joshua M. Myers 2019-12-24 The Howard University protests from the perspective and worldview of its participants We Are Worth Fighting For is the first history of the 1989 Howard University protest. The three-day occupation of the university's Administration Building was a continuation of the student movements of the sixties and a unique challenge to the politics of the eighties. Upset at the university's appointment of the Republican strategist Lee Atwater to the Board of Trustees, students forced the issue by shutting down the operations of the university. The protest, inspired in part by the emergence of "conscious" hip hop, helped to build support for the idea of student governance and drew upon a resurgent black nationalist ethos. At the center of this story is a student organization known as Black Nia F.O.R.C.E. Co-founded by Ras Baraka, the group was at the forefront of organizing the student

mobilization at Howard during the spring of 1989 and thereafter. We Are Worth Fighting For explores how black student activists—young men and women— helped shape and resist the rightward shift and neoliberal foundations of American politics. This history adds to the literature on Black campus activism, Black Power studies, and the emerging histories of African American life in the 1980s.

**The Great Society Subway** Zachary M. Schrag 2014-08 As Metro stretches to Tysons Corner and beyond, this paperback edition features a new preface from the author. Drivers in the nation's capital face a host of hazards: high-speed traffic circles, presidential motorcades, jaywalking tourists, and bewildering signs that send unsuspecting motorists from the Lincoln Memorial into suburban Virginia in less than two minutes. And parking? Don't bet on it unless you're in the fast lane of the Capital Beltway during rush hour. Little wonder, then, that so many residents and visitors rely on the Washington Metro, the 106-mile rapid transit system that serves the District of Columbia and its inner suburbs. In the first comprehensive history of the Metro, Zachary M. Schrag tells the story of the Great Society Subway from its earliest rumblings to the present day, from Arlington to College Park, Eisenhower to Marion Barry. Unlike the pre-World War II rail systems of New York, Chicago, and Philadelphia, the Metro was built at a time when most American families already owned cars, and when most American cities had dedicated themselves to freeways, not subways. Why did the nation's capital take a different path? What were the consequences of that decision? Using extensive archival research as well as oral history, Schrag argues that the Metro can be understood only in the political context from which it was born: the Great Society liberalism of the Kennedy, Johnson, and Nixon administrations. The Metro emerged from a period when Americans believed in public investments suited to the grandeur and dignity of the world's richest nation. The Metro was built not merely to move commuters, but in the words of Lyndon Johnson, to create "a place where the city of man serves not only the needs of the body and the demands of commerce but the desire for beauty and the hunger for community." Schrag scrutinizes the project from its earliest days, including general planning, routes, station architecture, funding decisions, land-use impacts, and the behavior of Metro riders. The story of the Great Society Subway sheds light on the development of metropolitan Washington, postwar urban policy, and the promises and limits of rail transit in American cities.

**American Public Policy** Dennis W. Johnson 2022-09-15 This is a sweeping narrative of American domestic public policy—its triumphs, struggles, and failures over the past 120 years. In a larger sense, it is a reflection on how the United States has grown and matured, faced challenges and opportunities, and how its federal leaders and policymakers have responded or failed to confront pressing problems. Moreover, American Public Policy addresses the hurdles and challenges that still lie ahead. Four critical questions are posed and answered. First, what were the most significant adversities endured by the American people? Second, what were the landmark domestic policies crafted by the president, enacted by Congress, or issued in Supreme Court decisions? Third, what did they fail to do? Finally, how well have federal policymakers met the key challenges facing America: income inequality, racism, financial crises, terrorist attacks, climate change, gun violence, and other pressures? And what do we still need to do? This book reaches out to students of public policy, American government, US history, and contemporary affairs, as well as to citizens, journalists, and policy practitioners.
