Concise Garden Wildlife Guide Bloomsbury 2015-01-15 This practical field guide, published in association with the Wildlife Trusts, covers 200 wildlife species that can be seen in the garden, including mammals, birds, reptiles, amphibians, insects, molluscs and crustaceans. Each species account contains accurate artworks that show details to help readers differentiate between similar looking animals and plants. A concise written account outlines further essential information, such as size, habits, voice, habitat, and distribution in Britain and the near Continent. The easy-to-follow layouts and artworks aid quick and precise identification, and make this ebook an invaluable reference when out-and-about as well as at home.

Nick Baker's Bug Book Nick Baker 2015-02-26 We are all fascinated by, and often wary of, the tiny animals that creep and crawl in our gardens or lurk in the dark corners of our homes, but how much do we really know about insects and their relatives? Nick Baker's Bug Book encourages our understanding of all types of bugs by providing practical information and fun activities. Learn how to determine the sex of a spider, how to look after ants in a home-made formicarium and even how to rear your own dragonflies. Packed with details on essential equipment for bug watching and collecting, informative illustrations and close-up photography, this book is essential reading for budding entomologists of all ages.

Steve Backshall's Venom Steve Backshall 2017-09-21 An exciting look at how various animals use venom for survival. A wide variety of insects, reptiles and amphibians use toxins to subdue their prey or to stop becoming prey to another predator. Even some mammals and birds resort to poison as a means of securing a meal or deterring attack! From species such as the King Cobra, Lionfish, Fat-tail Scorpion and Poison Dart-frog to the diminutive but lethal Black Widow Spider, *Venom* takes a fascinating look at the different types of natural venoms. TV presenter Steve Backshall needs no introduction following his performances on TV series such as *Deadly 60* and *Lost Land of ...* On a tour of the world's continents, he looks at over 60 of the most venomous creatures, describing their main characteristics and explaining how they administer their venom and what its effects are. Stunning colour photographs and exciting accounts of Steve's own encounters with some of these animals bring the world of natural venom alive.

Guide to Reference Books Robert Balay 1992 The 10th edition of the *Guide* (1986) is one of a small core of references essential to the day-to-day operations of Reference and Research Book News (it was enthusiastically reviewed in our May 1987 issue) and, we trust, to librarians and researchers everywhere. This Supplement, the only one to the 10th edition, lists 4,668 titles that cover reference publishing from the end of December 1984 through the end of 1990. As in prior editions, the focus continues to be on reference works for scholarly research, but representative works intended for general reference are included as well. Member price, \$76.50. Concise Butterfly and Moth Guide Bloomsbury USA 2019-10-29 This beautifully illustrated mini field guide is packed with information on the butterflies and moths of Britain and the near Continent. It covers more than 150 species, all of which are illustrated with superb full-colour artworks that show - where relevant - variations in colour, for example for male and female butterflies, as well as some of the most spectacular caterpillars. A concise written account covering size, description, habitat, flight times, distribution, foodplants and habits appears on the same page. Renowned natural history artists including Cy Baker, David Daly, Colin Emberson and Lyn Wells painted the illustrations.

Origin, Conservation, and Restoration of the Threatened European Grassland Ecosystem in the Anthropocene Grégory Mahy 2024-11-07 Natural and Semi-Natural Grassland Ecosystems (NSG) represent high-value biodiversity hotspots for biodiversity of the European continent, as well as an invaluable cultural heritage forged through millennia of

human-nature interactions. While pristine natural European grasslands result mainly from constrained specific climatic and soil conditions, semi-natural grasslands largely result from the activities of humans and their livestock (e.g. grazing, mowing, burning) during millennia of low-intensity land use. European NSG, their biodiversity, and the cultural heritage they represent are highly threatened since the beginning of the 20th century in a context of multifactorial global change including environmental dimensions (climate change, habitat fragmentation, pollution, biological invasions) and land-use changes with the accelerating of socio-economic evolution of agricultural practices (intensification or abandonment) and urbanization.

Britain's Insects Paul D. Brock 2021-06-08 The go-to photographic guide to Britain and Ireland's insects *Britain's Insects* is an innovative, up-to-date, carefully designed and beautifully illustrated field guide to Britain and Ireland's twenty-five insect orders, concentrating on popular groups and species that can be identified in the field. Adventures in Nature Dawn Nelson 2021-07-16 Through a mixture of original stories and traditional tales, *Adventures in Nature* offers an abundance of ways for families to connect with the earth. As our ancestors did before us, the book follows the seasons contained in the 'Wheel Of The Year', with each entry focusing on a story that brings us closer to the natural world, accompanied by simple craft projects, activities and mindful moments. In our busy, modern lives we have become increasingly disconnected from the world around us, and stories are an age-old way of re-establishing that link, nurturing a love for the environment and embedding awareness and respect for the planet within our culture. This book allows you to discover your very own adventures in nature through story.

Concise Garden Wildlife Guide Bloomsbury 2015-01-29

Concise Herb Guide Bloomsbury 2015-05-21 This practical field guide, published in association with the Wildlife Trusts, includes more than 180 herbs from Britain and Europe. Each herb type is illustrated with accurate full-colour artworks that show details of the flowers and leaves, roots and bark where applicable, and growth habit. A concise written account covers culinary, medicinal and other uses, size, description, habitat and distribution. Many of these plants grow wild in Britain and other parts of Europe, and can also be cultivated in gardens or foraged. The guide additionally includes exotic but commonly used species such as Vanilla, Cloves, Cinnamon and Star-anise. The easy-to-follow layouts and illustrations aid quick and precise identification, making this ebook an indispensable reference in the field as well as at home.

New Holland Concise Insect Guide Sandra Doyle 2011

Chris Packham's Back Garden Nature Reserve Chris Packham 2015-02-26 Written by the renowned TV presenter Chris Packham, this is

a readable, practical guide to attracting wildlife to your garden. Many of Britain's plants and animals have come to rely upon gardens as an essential lifeline as their natural habitats come under increasing pressure from human activity and global warming. This comprehensive book explains the best ways to attract wildlife to gardens and encourage it to stay there. Written in a light-hearted yet passionate and authoritative style, the guide challenges popular notions of 'weeds' and 'pests' and invites gardeners to think again about the choices they make. Chris Packham's informative and lively text is complemented by attractive photographs and illustrations that will encourage an interest in the natural world on your doorstep, whether your 'garden' is a rural idyll or an urban window box. Chris argues that we have become so spellbound by 'nature's celebrities' – tigers, pandas and their ilk – that we are in danger of overlooking the most exciting species of all: those that we can touch, smell and observe in our own backyard.
