Teaching Writing in a Title I School, K-3 Nancy L. Akhavan 2009 You know the challenges. In your Title I school you have students who are already at risk. Imagine what could happen if you could catch them up, forestall learning issues before they are entrenched, put them on equal footing with their peers. Nancy Akhavan has done it--in school after school. In *Teaching Writing in a Title I School* she shows you how to craft a rich literacy world where all your students thrive. "The first step you can take is to teach them to write. Really. Teaching children to write well is the key to helping them express themselves. It's also a scaffold to guide their thinking and understanding. It just might solve your teaching problems. You can ensure that all children learn, and you can close the achievement gap." Nancy's guidance is as practical as it is effective. Her carefully crafted planning tools, lessons, and graphic organizers make writing workshop fit seamlessly into your day. Her classroom workshop routines promote student engagement and provide focus. You'll learn how to organize units of study using the lessons from your existing writing program. State standards and meaningful assessment suddenly

become manageable. You'll also find effective intervention activities for students who struggle and tips for teaching English learners to write. This book is a must-have resource for teaching to engage all your students, ensure learning, and effectively intervene when students need it. With its companion, *Teaching Reading in a Title I School*, individual teachers, teachers studying together in professional learning communities, and preservice teachers will find the tools they need to build literacy instruction that guides all their students to high achievement.

Teaching Reading in Spanish Rocio del Castillo-Perez 2022-11-09 *Teaching Reading in Spanish: A Linguistically Authentic Framework for Emerging Multilinguals* is an essential teacher instructional guide to developmental biliteracy. It provides a comprehensive reading framework for teachers who teach students to read Spanish in K-12 dual language and bilingual programs. Anchored in asset-based pedagogy, this framework applies a systematic Spanish literacy approach to biliteracy by weaving together a tapestry of relevant instructional components including phonemic and phonological awareness, oracy, decoding, background knowledge, vocabulary, language structures, verbal reasoning, and literacy knowledge. What sets this Spanish developmental literacy framework apart is its approach to Spanish reading instruction that is based on linguistically-authentic pedagogy, not on English-language practices. *Teaching Reading in Spanish* includes the DCC Leveling Instrument, a standards-based, practical instructional tool that guides teachers through the process of efficiently and

accurately determining the reading levels of authentic Spanish text. DCC Lectura provides teachers with the tools that they need to guide their students to become skilled readers through appropriately challenging books that act as multicultural mirrors, windows, and sliding-glass doors.

Teaching Text Features to Support Comprehension Michelle Kelley 2015-05-26 When K-5 students understand how to read text features like diagrams, bullets, insets, and tables, they are reading the whole page--essential for deep comprehension of nonfiction and fiction text. In this revised edition of *Reading the Whole Page: Teaching and Assessing Text Features to Meet K-5 Common Core Standards*, seasoned educators Michelle Kelley and Nicki Clausen-Grace show you how to explicitly teach K-5 students to read text features, use them to navigate text, and include them in their own writing. The classroom-proven mini-lessons, activities, and assessment tools in *Teaching Text Features to Support Comprehension* help you: teach relevant Common Core State Standards and grade-level expectations; diagnose, monitor, and meet student needs with one of two level-appropriate assessments; evaluate knowledge with a unique picture book that can be downloaded that illustrates all the text features; and monitor and guide differentiated instruction with a convenient class profile. Sixty mini-lessons for teaching print, graphic, and organizational features provide ample choices for meeting the standards while adapting to students' needs. Flexible lessons, which follow the gradual release of responsibility model and increase in difficulty, can be used within the typical 90-minute reading block, during content-area instruction, in small groups, and as part of independent practice opportunities like literacy centers. Each lesson offers concept review, suggestions for differentiation, assessment options, and technology connections, requiring students to find, explore, manipulate, and create text features in their own writing. Even more activities--from text feature walks to scavenger hunts--help students integrate text feature knowledge as they read. The downloadable materials provided online include important resources and convenient lesson supports, such

as interactive thinksheets that can be filled out directly on the computer, visual examples of each text feature, rubrics, the assessment picture book, and readers' theatre scripts.

Let's Begin Reading Right Marjorie Vannoy Fields 2008 *Let's Begin Reading Right: A Developmental Approach to Emergent Literacy*, sixth edition, takes a constructivist, developmental approach to emergent literacy for infants to 8-year olds. This revision includes new introductory chapters that cover current issues (NCLB, standards) about emergent literacy, new features "Developmentally Appropriate Practice in a NCLD World" and "Home-School Connections", and expanded coverage of working with English language learners. It includes chapters and discussions on oral language development, reading, writing, setting up classrooms for literacy activities, how to select and read children's literature, how to assess literacy development, and how to select teaching resources.

Strategic Teaching and Learning 2000 Noting that the quality of literacy instruction in the upper grades is equally essential as literacy in the primary grades, this book focuses on helping students' needs in the upper grades and the needs of all teachers in grades four through twelve who endeavor to help students read to learn across the curriculum and comprehend at grade level, and accelerate the development of beginning and struggling readers. The book is divided into two sections: a theoretical background (Understanding the Reading Process; Developing Strategic Readers; and Delivering Strategic Instruction) and instructional strategies (Reading Comprehension; Vocabulary Development; Phonological and Print Skills). The theoretical background discusses understanding the reading process; developing strategic readers; and delivering strategic instruction. The instructional strategies discuss reading comprehension; vocabulary development; and phonological and print skills. (Contains 3 figures and 66 references.) (PM).
