Harmony in Context Miguel

A. Roig-Francolí 2003 Designed for undergraduate music majors, *Harmony in Context* provides the richest possible musical context for the study of harmony, constantly encouraging students to translate what they are learning into better performances and better listening. The musical examples and anthology encompass a wide variety of different composers and repertoires. Students will particularly appreciate the clarity of the presentation and the attractiveness of the text's layout, both of which enable a smooth progression through the material.

Spelling Nancy Lobb 2001

When is a g pronounced hard

or soft? How does y change to i when forming plurals? How can students recognize the silent gh? This popular test brings together a year's worth of spelling lessons for middle school students who are reading below grade level.

Graphic organizers, crossword puzzles, and spelling anecdotes accommodate numerous learning styles and make the learning fun and memorable.

36 lessons, each calibrated for different learning styles

Instructions are at the second-grade level, and words chosen are at the third-grade level

Recommended practice is for five 10-15 minute sessions per week Pre-tests and post-tests track student progress

Correlates to IRA/NCTE standards
